## PRESIDENT HARDING PASSES 57TH ANNIVERSARY OF BIRTH DAY IS SPENT VERY QUIETLY

WASHINGTON.—President Harding Thursday celebrated the 57th anniversary of his birth almost as quietly and simply as the average American citizen observes a birthday. There were no indications at the White House of anything more than just an ordinary day in the life of the chief executive of the land.

President Harding

Because Mrs. Harding still is confined to her bed, although recovering from her recent illness, there will not even be a birthday party dinner.

The fact that today was his birthday, however, was not forgotten by close friends of the executive. All day long—the beginning really was yesterday—telegraph wires at the White House ticked and messenger boys arrived carrying messages of birthday greetings, many of them from rulers and leaders of other countries.

Close acquaintances of Mr. Harding remarked today on the recent improvement in his physical condition. A month ago the strain of two years—for it was just two years ago today that Mr. Harding was elected to the presidency—had become noticeable. A summer of continuous work without a vacation, the troubled industrial situation, and, finally, Mrs. Harding's illness, had increased the strain.

Heeding the advice of his physician the president for a month has been taking things easier devoting more time to rest and spending more time on the golf links.

## KIDNAPPER OF MICHIGAN GIRL HELD UNDER GUARD CHILD IS NEAR DEATH

**MUSKEGON, Mich.—Raymond E. Wilson of Grand Rapids, arrested last night on a charge of kidnapping 11-year-old Rosalie Shanty, pleaded guilty to a charge of abduction when arraigned in circuit court here at noon Thursday.**

**Wilson was returned to the county jail to await sentence.**

**Advices from Dublin, in Manistee county, nearly 100 miles north of here, where the child was found wandering in the swamp country, stated that she was still in a highly nervous condition, but probably could be removed to her home shortly. According to Dr. Fairbanks, who is attending her, it will be several days however, before she will be able to relate her experiences. It is possible, Dr. Fairbanks added, that her mind may be permanently affected.**

MUSKEGON, Mich.—While eleven-year-old Rosalie Shanty lay near death in a farm-house at Dublin, Mich., early Thursday, Raymond E. Wilson, of Grand Rapids, was being held at the county jail here under heavy guard as the man who kidnapped the child last Sunday, drove with her to the jack pine swamps of Manistee county and there abandoned her.

Wilson confessed, the sheriff reported, that he abducted the girl. A formal charge of kidnapping was lodged against him and officers announced he would be arraigned on that count unless developments in the girl's condition warranted a change.

Word from Dublin Thursday morning was that Rosalie, widely known here as the swimming girl, through her expert exhibitions at a local beach last summer, might not recover. She still was in a semi-conscious state and suffering from a high fever from exposure in the forest where she was found by a farmer her clothing torn to shreds and her body scratched and bruised by the underbrush.

In his statement to the authorities Wilson was quoted as saying he enticed the child into his automobile as she was leaving a church here Sunday, drove her about the city for some time, then started for Dublin. Near that town, the reported statement said, Rosalie became alarmed and asked to be let out of the car. Wilson said he left her near a farmhouse and then returned to Grand Rapids. The prisoner said he was intoxicated when he took the girl into his car, and was unable to explain his action.

Feeling ran high in Muskegon when it became known today that Wilson was being held here and numerous deputy sheriffs and police reserves were called out to guard against disorders.

A strong cordon was thrown around the jail and citizens were not permitted to congregate in the streets for blocks around the building.

Wilson is forty-one years old and has been married twice. Officers said he had a police record and had served a term in Jackson prison.

## CASTLE RELEASED FROM WAUPUN AND WILL BE DEPORTED

**Former La Crosse Implement Dealer Has Five-year Sentence Commuted**

**WILL BE SENT BACK TO GREECE BY THE FEDERAL AUTHORITIES**

**Serves Two Years of His Five-year Term at Waupun**

A. M. Castle, La Crosse farm implement dealer sentenced to serve five years at Waupun for obtaining money under false pretenses, will be deported to Greece by federal authorities, following commutation of his sentence by Governor J. J. Blaine, according to word received from Madison today.

Governor Blaine granted the commutation of sentence at the request of federal authorities to permit Castle's deportation to Greece, his native country. Local authorities expected action of this sort inasmuch as it was said at the time Castle was sentenced here that United States authorities would take this proceeding when the former implement dealer completed his sentence in the state penitentiary.

Castle was arrested in Canada after a long pursuit and brought back to La Crosse to stand trial for obtaining money under false pretenses while in the implement business here. He was convicted by a jury in circuit court and sentenced on December 3, 1920, to serve five years. He has served nearly two years of his five-year term.

It is expected that Castle will be escorted to New York by federal officers and deported within a week or two. Mrs. Castle and the children are living in Canada.

## *ISSUE RULES FOR INSTALLATION OF WIRELESS SETS*

MADISON, Wis.—To minimize the dangers from radio antennae the industrial commission announced Thursday that it has included in the new state electrical code a provision governing installation of wireless sets.

The code provides that antennaes outside of buildings shall not cross over or under electric light or power wires of any circuit of more than 250 volts. They must be constructed and installed in a strong and durable manner and be so located as to prevent accidental contact with light or power wires by sagging and rigging.

According to the industrial commission a number of fatalities have already taken place due to carelessness on the part of amateurs installing radio antennae over electric light wires.

## *NEGRO SENTENCED TO THREE MONTHS FOR STEALING COAT*

James O'Neil, negro, was sentenced to three months in the county jail by Judge Brindley on Wednesday for the theft of an overcoat. O'Neil was found guilty by a jury in county court. O'Neil was charged with stealing an overcoat, the property of Ed Knutson, from an auto parked in front of the La Crosse hotel and selling it to a man in a Third street taxi garage. O'Neil was defended by Lawrence J. Brody and the case was prosecuted by Rudolph Schlabach, acting in the place of District Attorney Reid who is in Winnipeg seeking to obtain the arrest of Sam Birmingham.

## *AUTO AND TROLLEY IN COLLISION AT FOURTH AND MAIN*

An automobile, owned by Hazen & Robbins, automobile dealers, and driven by a man who refused to give his name to street car company officials, and a trolley car collided in Main street, between Third and Fourth street Wednesday evening. The street car was not damaged; a fender on the automobile was bent. The street car was going west and the auto was traveling east.

## MASTER BUILDERS PROTEST AGAINST UNION ORDINANCE

**Object to Provisions of Pending Measure Regarding Public Work in City**

**CALLED CLASS LEGISLATION BIG EXPENSE TO TAXPAYERS**

**Opens Door to Bribes and Graft, it is Claimed**

That the master builders of the city at a meeting Monday night adopted a resolution protesting against the ordinance proposed for the regulation of labor employed on public works in the city became known on Thursday, when a copy of the resolution was made public and another was sent to the council judiciary committee, which is considering the ordinance.

The protest asserts that the ordinance is not only illegal, but that if an attempt is made to establish it an increase in taxes will result.

The protest asserts that the purpose of the ordinance is to require the payment of union scales of wages on all city work. The ordinance is called class legislation and declared an unfair interference with the business of contracting. "Paternalism" and "opening the door to bribes and graft" are other charges made against the proposed measure.

**Protest of Builders**

The protest of the master builders follows:

"Whereas, there is now pending before the common council of the city of La Crosse an ordinance entitled, "An Ordinance to Regulate and Establish Standards and Requisites of Labor Employed in all Public Works in the city of La Crosse," and

"Whereas, it appears to the master builders of the city of La Crosse that the real object of said ordinance is to compel every contractor in the city of La Crosse who shall attempt to bid on any public work, including street improvements, to bid high enough to pay a scale of wages which shall be dictated by the Trades and Labor Council of the city of La Crosse and to destroy competition and to compel taxpayers to submit to extortionate taxes for the payment of street improvements in front of their property and to compel the city of La Crosse to submit to extortionate high taxes and destroy competition in the construction of school buildings and all other public works; to make a closed shop out of the city of La Crosse insofar as competitive bidding on public works is concerned; to farm out to the Trades and Labor Council of the city of La Crosse the fixing of the wages that contractors doing work for the city of La Crosse, shall pay and to deny to every man who is not a member of a union in good standing, the right to work on public works in the city of La Crose; to create monopoly and to destroy every element of competition that protects the taxpayers against extortionate cost of public works.

**Called Illegal**

"The Master Builders association is opposed to said ordinance because it is illegal and because similar laws and ordinances have always been held to be illegal.

"Because we believe that our taxes are already too high and that instead of increasing the cost of the construction of public works we should encourage competition so that such work might be done reasonable, and encourage more work instead of less.

"Because such an ordinance, instead of promoting public work, will discourage it.

"Because the time has gone by when the union label stands for efficiency, because of the fact that all tradesmen, regardless of their efficiency and competency, are practically compelled to join the union or be denied the right and opportunity to earn a living at such compensation as he is reasonably able to earn.

"Because such an ordinance denies to the contractor the right to protection against the dictation and mistakes of others. That he is solely responsible for the delivery of competent work and should have the free right of contract and select his own labor unhampered by the dictates of some irresponsible body, who assumes no risk.

"Because it is the rankest kind of class legislation.

"Because said ordinance requires to publish to the world and to the advantage of his competitors and to his own disadvantage, the facts concerning his private business.

**Unnecessary Expense**

"Because it requires contractors to file a report each month thereby entailing a lot of unnecessary expense, which must ultimately come out of the taxpayers.

"Because it is an encroachment upon the rights of private business and contrary to what any other business man is required to do and leads to the destruction of competition and consequent increase in taxes.

"Because it is a reflection upon the honesty and integrity of every contractor or master builder.

"Because it is the rankest kind of paternalism, giving opportunity to meddlesome persons to pry into the affairs of other people's business.

**Invites Graft, Claimed**

"Because it opens the door to these individuals who are in a position to

## *RAILWAY MAGNATE FOUND DEAD IN BERTH ON TRAIN*

Thomas De Witt Cuyler, Director of Pennsylvania Road and Head of Rail Executives' Body.

## T. DE WITT CUYLER DIES FROM HEART ATTACK ON TRAIN

**Railway Official and Lawyer Found Dead in Berth at Philadelphia Station**

**OCCUPIED PROMINENT PLACE IN RECENT RAILWAY STRIKE**

**Pennsy Road Director Acted as Spokesman for Rail Heads**

PHILADELPHIA, Pa.—Thomas De Witt Cuyler, a director of the Pennsylvania Railroad company and chairman of the Railroad Executives' association, was found dead Thursday in the private car of President Rea of the Pennsylvania in Broad street station.

Mr. Cuyler was in Rochester, N. Y., Wednesday and was apparently in good health.

The private car arrived at Broad street station early Thursday and was placed on a sidetrack. According to instructions a porter called Mr. Cuyler at 8 a. m. He received no response and becoming alarmed, summoned an attendant and a physician. The doctor pronounced Mr. Cuyler dead. Death was due to a heart attack. He had been dead a little more than an hour according to the physician.

Mr. Cuyler was a lawyer but most of his time was taken up with railroad and financial affairs. He came prominently before the country in the recent railroad shop strike by virtue of his place as chairman of the railway executives and took a firm stand against some of the demands of the strikers.

Mr. Cuyler was 68 years old. He engaged in the general practice of law, making corporation law his specialty. He was counsel for many large financial and railroad corporations in Pennsylvania and other states.

## *U. S. PUBLIC DEBT INCREASED BY MORE THAN 200 MILLIONS*

WASHINGTON, D. C.—An increase of more than $265,000,000 in the public debt during October is shown in figures made public Thursday by the treasury.

On October 31 the gross public debt stood at $23,77,000,000, as compared with $22,812,000,000 on September 30, and with $23,159,000,000 on October 31, 1921.

## *ESTIMATE DAMAGE FROM MULE KICKS AT $8.25 EACH*

LOS ANGELES, Cal.—The kick of a mule causes damages of $8.25, according to the Los Angeles municipal board of public works.

City owned mules which draw garbage wagons and other municipal vehicles have kicked a large number of citizens of late, according to reports to the board, which finally fixed damages at $8.25 a kick.

## *COMMUNITY COUNCIL TO MEET SATURDAY AT C. OF C. HALL*

Hon. Elmer S. Hall, secretary of state, will be the speaker at the regular meeting of the Community council at the Chamber of Commerce Saturday.

The board of directors will hold a meeting at half-past eleven with the regular luncheon meeting following an hour later. Community singing will be directed by Prof. Joseph Loeder, of the Normal school.

## HUSBAND OF SLAIN SINGER TAKES ISSUE TO HALL STATEMENTS

**Met Widow of Pastor Several Times on Day After the Double Murder**

**NOT VINDICTIVE BUT WANTS MURDERER OF WIFE PUNISHED**

**Declares He Had no Knowledge of Affair Between Couple**

NEW BRUNSWICK, N. J.—Looking up from work in a coal bin in the basement of the schoolhouse where he is janitor, James Mills, whose wife Eleanor was murdered with the Rev. Edward W. Hall on September 14, took issue with some of the statements made Wednesday by the clergyman's widow in an interview.

Mills said that he met Mrs. Hall at the church at 8:30 o'clock on the morning of September 15. Mrs. Hall said that she was at the church at 7 o'clock.

"The first think Mrs. Hall asked was: 'Was anybody sick at your house last night?' We then commented on the fact that both my wife and her husband were missing and I said: 'Maybe they eloped.'"

"'No,' was Mrs. Hall's reply. 'I think something has happened to them.'

"At noon when Mrs. Hall came to my house I told her I had not heard anything and she said she had not either. Then she went away.

"I saw Mrs. Hall again at 7 o'clock in her home. I went there to ask her if she had any news. I stayed on the porch to talk. She did not seem to take it as hard as I did. I had an idea that Dr. Hall and my wife had been together but I did not think there was anything wrong. I do not know why I ever suggested an elopement."

**Wants Murderer Punished**

Commenting on Mrs. Hall's statement that she was not vindictive and that she did not care to see anyone punished for the murders, Mills said:

"I am not vindictive either, but I want to see the murderer punished. I believe it was a woman's deed. All these theories about blackmail and robbery and things are rot. It was jealousy and I think her throat was cut in spite, because of her beautiful singing.

"I never heard any gossip about my wife and Dr. Hall. If I had I would not have stood for it for a single minute. I am man enough not to have kept that job at the church if I thought there was anything wrong between the minister and my wife."

The authorities are closely studying Mrs. Hall's replies to newspapermen in which the rector's widow voiced her faith in Dr. Hall; maintained that she had no theories as to the murders; said she did not seek revenge, and denied the accusations made against her by Mrs. Jane Gibson.

## *COMMITTEES TO CONSIDER OPTIONS ON SCHOOL SITES*

Committees on grounds and buildings, audit and purchase, ways and means, judiciary and public utilities Friday night will discuss the options received on land in block 7 of Stevens addition, and block 3 of Losey's addition for the proposed Lincoln and North Branch schools respectively. Property owners are requested to appear before the committees.

These committees will also consider bids received for sale of lots in Losey's and [illegible] resolution fixing the office hours of the city scales. The sketches of the proposed new Lincoln and North Branch schools will be considered.

On Thursday evening the committees on public utilities, grounds and buildings audit and purchase and judiciary will meet to consider all matters in the hands of the committees.

## *AUTO AND "MOON" COSTS VIOLA MAN FINE OF $52.50*

Melvin Henderson, Viola, paid fine of $52.50 in police court Thursday morning on a charge of driving his automobile while under the influence of liquor. Henderson first entered a plea of not guilty, but later changed his plea to guilty.

Henderson was arrested by Officer Beznous at Fourth and King streets about 11:20 Wednesday night. He had started in his car at Second and Market streets.

Matt Judge was fined $7.50 on a charge of plain intoxication Thursday morning.

## LIBERAL PARTY LEADS IN CUBAN ELECTION

HAVANA.—By The Associated Press.—The liberal party seems to be on top in the Cuban politics as a result of their victories in the elections held throughout the island Wednesday.

Incomplete and unofficial returns indicated they had elected liberal candidates as governors of six Cuban provinces and had won the race for mayor of Havana.

## BIRMINGHAM'S ARREST IS SOUGHT IN WINNIPEG BY DISTRICT ATTORNEY REID

## LABOR HEAVY LOSER IN LOCAL ELECTIONS THROUGHOUT BRITAIN

**Party Redoubles Efforts in Order to Make Better Showing in General Election**

**OVER THREE HUNDRED SEATS IN PARLIAMENT LOST BY LABORITES**

**Regard Local Contests as Index of How General Election Will go**

LONDON—By The Associated Press.—Stunned by the heavy downfall of their candidates in the municipal elections throughout England, the laborites intensified their political campaign Thursday with the hope of making a better showing in the general election for parliament, November 15.

In Wednesday's balloting the laborites lost 140 seats which they had previously held in London and about 160 seats which they had occupied in eighty boroughs outside the capital, for the most part in large cities

**Regarded as Index**

Although nominally considered purely municipal issues, local contests are generally regarded and often are an index to existing political feeling. This time the races were watched with intense curiosity as a possible forecast of labor's chances in the coming general elections.

Some observers profess to see a renewal of harmony between Lloyd George and his former colleagues in the statement made Wednesday by Sir Robert S. Horne, who although he was one of the most faithful followers of the little Welshman, informed a Glasgow audience he was still a unionist and that if elected he would sit on the unionist side of the house and give his general support to Premier Bonar Law.

The illness of Lloyd George attracts much attention. His cold and throat trouble is said by some to really be a symptom of run down health due to fatigue.

**Premier Declares for Stability**

LONDON.—By The Associated Press.—Premier Bonar Law in an address to a meeting of women in the Drury Lane theater Thursday afternoon reiterated that his policy was one of tranquility and stability.

"As regards foreign policy," he added, "I venture to express the hope that America may gradually take an interest in the league of nations in some form or other and may gradually feel that it is her duty to help in the chaos in which the war has left the world."

**Hopes For Near East Peace**

"Our relations with France must be the keynote of our foreign policy," the premier declared. "As to the position in the Near East what I hope for from the conference is that there may be a settlement which will give peace to that part of the world and which will enable us to bring our troops back and cease spending money in those distant regions."

"As to the home policy," continued Bonar Law, "the most important thing is to cut down expenditures. Without that there can be no reduction in taxation.

"We must maintain our naval position," the premier declared later on. "We must retain forces adequate for the security of the empire.

"The strength of this country," declared he, "depends as much on its financial and industrial position as it does on its arms, and in weighing the dangers we must take the one into consideration as well as the other."

The premier epitomized his policy in the declaration: "I repeat that my policy is one of negation. There are times when it is good to sit still and go slow."

Mr. Bonar Law announced that he had received a friendly message from the head of the Italian government and he added that he had replied on behalf of England, reciprocating that friendly message.

**People Wanted Change**

Mr. Bonar Law said Lord Balfour had asserted that the coalition had been wantonly destroyed. That was not true picture of the situation, however.

"The real cause of that change," he added, "is that the people of this country everywhere felt that under Lloyd George's rule, we do not know where we are today and cannot tell where we will be tomorrow."

**Look For Exciting Election**

LONDON. — By The Associated Press.—The voters of England always seem to get more fun out of election days than the Americans and everyone is looking forward to a very exciting time in the coming parliamentary races.

It is customary for all the candidates along with their wives or husbands to be present at the central polling places in their boroughs so that they can appear before the people and make speeches as soon as the will of the electorate is proclaimed.

## MISSING MAN IS TRAILED TO NORTHERN CITY

**Real Estate Operator Who Disappeared in September, 1921, Hunted Ever Since He Left Town**

**WIFE IS LOCATED; SUSPECT IS BELIEVED TO BE NEAR HER**

**Warrant for His Arrest Issued Last Winter and Left With Sheri ffor Service**

SAM Birmingham, erstwhile real estate operator and gambler, who closed a spectacular career in La Crosse by disappearing from this city early in September, last year, has at last been located by the authorities and now is being sought in and near Winnipeg, Canada.

District Attorney Reid left for Winnipeg last Thursday and for nearly a week has been conferring with the dominion authorities in an effort to effect the arrest and extradition of Birmingham.

**Just Blew Town**

When Birmingham decided to shake the dust of La Crosse from his feet he merely closed his Main street real estate office and blew. It was several days after he left the city before the authorities and the alleged victims of his real estate manipulations realized that he was gone and that the only things he left behind that could be realized on were a few articles of office furniture,—and most of these went to pay the back wages of an office employe.

In the year that has passed since Birmingham ceased to be the spectacular figure about town, a number of suits have been filed in circuit court to recover money that Birmingham obtained. One suit was filed by a Chicago brokerage house to recover on some wheat deals in which Birmingham figured. Other suits were filed by persons who had had real estate dealings with him and who thought they were buying houses and lots but who discovered to their sorrow that they did not own the properties they thought were theirs. Judgements were rendered against Birmingham in practically all of the cases but that is as far as the cases went. There was no money to pay the judgments and nobody knew where to find Birmingham so the money could be collected.

**Went to Chicago First**

The authorities learned that Birmingham went to Chicago after he left La Crosse and that after remaining there a short time made tracks for Canada, his former home, where he was known as Hirst. Birmingham being an assumed name, it is said, which he used while trying to rehabilitate himself when in La Crosse.

The authorities also learned that Birmingham or Hirst had a wife in Winnipeg to whom he was in the habit of sending several hundreds of dollars a month, more sometimes when the pickin's were good. And he was so persistent in this saving habit, it is declared, that hundreds of dollars found their way to his wife who assiduously invested it with the result that when the crash came in La Crosse, Mrs. Birmingham or Hirst was what might be called comfortably situated in a financial way.

But the search for Birmingham never ceased entirely, although at times

# MANY REGISTERING FOR DAIRY COURSE AT WISCONSIN "U"

### Six Months' Experience in Dairy Enterprise Required of Entrants

MADISON, Wis.—Scores of students are pouring into Madison Thursday in order to register in the Dairy course given by the College of Agriculture to students who desire a practical training in the field of dairy manufacture.

Registration started Wednesday and will continue through the day. Classes will start at 8 o'clock Friday. The winter dairy course last twelve weeks and will be concluded January 25th. The course consists of practical training in butter making, ice cream manufacture, cheese making, milk inspection, and other allied dairy industries.

Students who enter must have had at least six months experience in a creamery, cheese factory or some other dairy enterprise. Students must have had a common school education or its equivalent, and must be at least 16 years of age.

An unusual demand for men to fill responsible positions in dairy enterprises exists at the present time, according to information published by the Dairy Department. Demand for 183 buttermakers, 176 cheese makers 16 factory managers are some of the requests that have come for trained dairy men.

Certificates are issued to men who complete the course successfully and who show satisfactory evidence of two seasons experience in a creamery or cheese factory.

# UNIVERSITY FROSH MUST WEAR GREEN CAP ALL THE YEAR

MADISON, Wis.—Freshmen must wear the present green cap subject to senate announcement, according to Maynard Brown, '23 student senator.

"The student senate decided upon the present cap in order that freshmen could wear them during colder weather. We are also contemplating a green toque to be worn during the winter months," Brown said.

"Freshmen will be required to wear some form of green cap during the entire year, or until cap night next spring." David Wheeler '25, chairman of the traditions committee, asserted. "The committee is prepared to report all violators to the student court."

PUEBLO, Col.—Alva Adams, 72, former democratic governor of Colorado, died at Battle Creek, Mich. He was credited with having originated the slogan "See America First."

# GOVERNOR BLAINE ORDERS SURVEY OF ALL SOLDIER PRISONERS IN WISCONSIN

MADISON, Wis.—A survey of all ex-service men in Wisconsin penal institutions was directed Thursday by Governor J. J. Blaine to determine the mental, nervous and tubercular condition of the former soldiers. He is asking Dr. William F. Lorenz, director of the Wisconsin Psychiatric institute, and Dr. W. S. Middleton of the university clinic, to conduct the survey.

The governor said that he would prepare a questionnaire for prison authorities to fill out at the time of examination of each man, so that he may carry out a plan he has to protect these men in their compensation, vocational training and other civil rights growing out of war service.

Following is the letter prepared by Governor Blaine, directing Dr. Lorenz and Dr. Middleton to proceed with a personal examination of former soldiers now in Wisconsin's prisons:

"In accordance with the conferences I have held with you, I desire to ask you to make a survey of ex-service men now serving sentences in the state prison at Waupun, the reformatory at Green Bay, and the house of correction at Milwaukee, with respect to the mental and nervous and tubercular condition under which a great number of the men may be suffering.

"Last March there were 352 ex-service men in those three institutions. Some of those men have been discharged on account of the expiration of their terms, some have been paroled by the board of control and many others released through executive clemency, but I find it utterly impossible for me to know the mental and physical condition of those men, except as their applications for executive clemency come to me. While many have been released in the manner above stated, in all probability others have succeeded them.

"Many of the men are without friends or relatives and without money, and those who have been unable to present their respective cases to me for executive clemency.

"I also desire to suggest that I will prepare a questionnaire for the prison authorities to have filled out at the time of the examination of each man so that I may carry out a plan I have in mind to see that these men are protected in their compensation, vocational training and other civil rights growing out of their war service which because of their incarceration in all probability have been overlooked.

"In the cases that should receive immediate attention by transfer to the Psychiatric institute or some sanitarium you can report to me from time to time, and under the statutes I will issue the necessary permit for their transfer as your report and advice suggests.

"I trust that the survey can be commenced as early as possible and completed as soon as possible, and knowing your intense interest in this movement, I am leaving that to your own good judgment.

"After the survey is completed, I will then arrange through some department the necessary legal assistance to take care of the civil rights involving obligations of the state and federal government of those who have been unable to enforce such obligations.

"I know this survey will involve additional burdens upon you, and I am very happy to know that you very generously offered to take on those additional burdens."

CHICAGO, Ill.—Ben W. Hooper, chairman of the railroad labor board, said the board served the best interests of labor and the public. He assailed Edsel Ford, Samuel Gompers and William R. Hearst.

# MANY STUDENTS ARE GIVEN INSTRUCTION AT HISTORY MUSEUM

### Three Thousand from Grade School to University Attend Classes

MADISON, Wis.—About 3,120 students from Wisconsin schools—high, public and other schools, and the state university—have been given instruction in 118 classes in the Wisconsin Historical museum, Madison, during the past year, according to the annual report of Curator C. E. Brown.

High school students, numbering 505, visited the museum from the following Wisconsin high schools: Coloma, Fennimore, Genoa Junction, Hollandale, Janesville, Juneau, Lodi, Madison, New Glarus, New Lisbon, Oregon, Ridgeway, Stoughton, Tomah, and Camp Douglas.

Graded and rural schools sent 524 students from the following cities and towns: Burke, Cambridge, Stoughton, Dane, Deerfield, De Forest, Fennimore, Fisher Valley, Juneau, Mazomanie, Middleton, Mt. Horeb, Milton Pleasant Springs, Blooming Grove, Rockdale, Sanderson, Sauk county schools, Smithback, and Sun Prairie.

Eleven Madison public schools sent 730 and other Madison schools, 63. About 108 from Rock and Columbia county teachers' training schools, and the state supervising teachers' association visited the museum, and miscellaneous schools sent 193, and agricultural schools, 23.

The 974 university students who used the museum included: 363 industrial arts and arts students in 17 classes; 115 civil engineering department students; 15 costume design students; 200 economics students; 30 home economics students; 20 Library school students; 5 pharmaceutical students; 6 physical education students 50 short course agricultural students; and 170 biology students.

LONDON.—Stanley Baldwin, new chancellor of the British exchequer, declares that his first duty will be to settle the debt of the United States.

DOORN.—Duchess of Brunswick, daughter of former Emperor Williams, arrived at Doorn for wedding and the crown prince is also expected.

THE way to satisfaction, comfort and health through Postum, has become a world-wide way.

This famous table beverage which has stood the test of twenty-five years, fills every requirement of taste for a hot and invigorating mealtime drink. Unlike coffee or tea, Postum contains nothing that can irritate nerves or disturb digestion. Even the children may safely enjoy it.

Wouldn't it be well for you to avoid the harm which so many have found in coffee and tea, and protect health while pleasing taste, with wholesome, satisfying Postum?

Order from your grocer today!

Postum comes in two forms: Instant Postum (in tins) prepared instantly in the cup by the addition of boiling water. Postum Cereal (in packages), for those who prefer to make the drink while the meal is being prepared; made by boiling fully 20 minutes.

The two forms are equally delicious; and the cost is only about ½c per cup.

## Demon's Speed

AN airplane with a speed of 500 miles an hour will be developed "within a comparatively short time." So predicts Brig. Gen. William Mitchell, assistant chief of the army air service. Then, says Mitchell, a business man will be able to leave New York City early in the morning, fly to England, have lunch, transact business, and return home before dark. If so, what would happen to prohibition? A picture rises, of a rum-hound flying over to London for a spree, back the same day.

In flying at terrific speed, such as 500 miles an hour, the chief problem would be supplying air to passengers and crew. Mitchell tells of experiments, being conducted by the army, using oxygen tanks to furnish air for the people in an air-tight cabin of the flying craft. Fast planes in another generation or two may be as common as autos are today. Devices such as oxygen machines will be needed then. And they will be monopolized by patents.

About twenty years ago a writer in the old Argosy magazine wrote a story, "A Round Trip to the Year 2000," in which he pictured earth's inhabitants going about with meters attached to their noses. A trust had monopolized the air and was making people pay for the privilege of breathing. Maybe this writer was more of a prophet than a "romancer."

Interesting problems will rise when airplanes making 500 or 1000 miles an hour, or more, come into general use. The frontiers of countries then will virtually disappear. The flying machine, conquering time and geography, will literally place the far corners of the earth at Mr. Average Man's door. Prohibition or most other attempts to regulate individuals' conduct will be futile then, unless the laws apply all over the world. What will be the good of a drastic law, applying only in one country, when men will be able to evade it by flying to another country in a few minutes or hours?

What, for instance, would restrain a murderer who could kidnap his victim in secrecy, rush him in a flying machine to an iceberg or jungle, commit the murder, dispose of the body and return? Once home, even if his crime were discovered, he could not be made to answer any charge except kidnapping or assault with intent to kill, the actual murder being committed outside his own country.

The airplane will steadily lessen the effectiveness of many laws within any given country, and international laws will become the most important statutes in the world.

## Fire

HENRY L. DOHERTY, president of Cities Service Company, announces that he will heat 100 Denver homes with manufactured gas this winter "at a cost that will compete with coal." That may be one solution of the coal problem—shipping it into coke, then sending the byproduct gas to consumers through a network of pipe lines covering the country like a spider's web. The final solution will be burning the coal at the mines, generating current to go over high tension wires to a country on an electrical basis—or so engineers predict.

## But Not a "Boom"

HERE is a statement about business that we found interesting:

CLEVELAND O.—The business tide is rising; the receding tide has carried out most of the wrecks of business and the incoming tide is raising the tide line of business, according to the monthly business review of the fourth federal reserve bank issued on Wednesday.

"Were it possible to sum up in four words the expressions of our many correspondents in the district they would be, 'We're buying now,'" the review says.

That is encouraging, we should say. A steady, sustained activity all around would be the best news for the average citizen that he has heard since the armistice was signed. Not a boom—after what happened in 1920 and 1921 most of us know enough to feel decidedly gunshy on booms. But probably the business community has learned that lesson. Even if they could launch an era of speculation and inflation which would make quick profits for everybody going up, business leaders, one suspects, would not do it. When the bubble bursts the losses, going down, are even quicker than the profits on the up-grade. The federal reserve bank report noted above says that the receding tide carried out most of the wrecks of business. The wrecks referred to are chiefly those of concerns that fell for the "boom" idea. Those that remain are cured, for the most part. They wouldn't "boom" if they could. Sometimes, of course, world and domestic conditions are such that the boomsters have it all their own way, despite the opposition of men with more conservatism and experience. But that is not now the situation. Given conditions as they are at present, and the conservatism painfully taught by the post-war period, and we should be safe against the dangers of too much speculation and inflation for some time to come.

## Pay

WAGES of male farm laborers average $28.97 and board a month, reports Department of Agriculture, $41.58 without board. City men can make interesting comparisons of their incomes with farmhands'. Farm employers also have been in a bad way. Their profits in 1920 averaged only $186 apiece, says James R. Howard, president of the American Farm Bureau Federation. What they're making now will not be known for another year or so, the compiling of this kind of average statistics taking a long time.

## Gliding

MANEYROLLE, French flyer, goes up in a gliding machine and soars three hours 21 minutes before coming down. More interesting than the flight is his machine. It has big wings, looks like a dragon fly, and is a copy of the craft used by Langley 34 years ago in our country. After wandering far, the architecture of flying machines thus gets back to copying the bird. The return is logical, for the bird is the perfect flyer. And man cannot improve on nature.

## Theft

IN Cincinnati a man is fined $5 for stealing a newspaper from a subscriber's front porch. This will "strike a responsive chord" in many a heart. There are few things more aggravating than to find one's paper missing. These little things are the really intimate problems of life. If you doubt it, try to start a conversation about the politicians or tariff with the man who's just discovered his daily paper stolen.

## Gambling

KING ALFONSO of Spain watches reckless gambling in the baccarat rooms at Deauville. Urged to try his luck at the cards, he refuses, saying, "I am not rich enough to gamble." Neither is any one else, though usually they do not discover it until their financial feathers have been plucked. This Alfonso displays rare sense, for a king.

## Say It With Radishes

By H. LOUIS RAYBOLD

Even after Betty Gaynor's uncle died and left her several hundred thousand dollars John Bradley kept right on loving her, although he didn't talk so much about it. How could he expect that Betty, with all sorts of radiant possibilities suddenly opened to her, would still feel the same toward the prosaic life he could offer her as his wife?

John was doing well in his profession. As a matter of fact, he was fast getting the name of being one of the finest landscape gardeners in the country and had many a beautiful, artistically perfect estate to his credit. Yet it would be many years before his income would be a drop in the bucket compared to Betty's.

Now, one of Betty's first extravagances—so termed by Miss Deborah Perkins, Betty's middle-aged thrifty housekeeper—was the purchase of old Caleb Hemingway's place, a rambling, run-down farm of devitalized fields, overgrown woodlots and unkempt meadows. Betty had torn down the house and replaced it with a tapestried brick affair, comfortable and pleasing in appearance. The grounds—well, what more natural than that she should put them into the hands of her old-time friend, with carte blanche to do as he pleased with them?

Their beautifying became a labor of love with John. Much of the shrubbery and many of the rare specimens in the rose gardens he set out with his own hands. By night he pored over his books and blue prints, seeking new means of expressing beauty.

Frequent consultations with Betty were by no means the least desirable feature of his job, and at times it necessitated all his self-control not to tell her of his love. A certain wistfulness in the girl's eyes tempted him. Did she wonder why he was so much more formal than in the old days before her fortune had come between them?

Day by day the impulse strengthened to let her know, in some delicate fashion, that his love for her still existed. He came to ponder the problem almost incessantly, but not until Betty declared she must have a vegetable garden did the answer come.

For some time he had decided what form his message ought to take, but to use for the purpose the conspicuous means of a flower bed would never do. A vegetable garden suggested the solution. He would plant his love in seeds—in some quick growing annual. Radishes, for example.

All but a sunny, inconspicuous little corner he turned over to his assistant, a canny taciturn old Scotchman named Ferguson. In that little plot he labored carefully reminding himself that he must urge Betty to take personal supervision of her radish bed. Truly it was a work of love as well as alphabetic art, and on the morning of its completion John rose from his knees with a prayer for the proper amount of sun and rain to produce speedy results.

Now, whether or not John's long hours spent bent over in the sun was the cause, or whether, as an up-to-date psychologist might say, it was the result of the long repression of his love for Betty, at any rate something went suddenly out of kilter that night in John's wellbeing. Morning found him calling incoherently and tossing in fever, while two doctors discussed treatments and remedies, and tried not to listen to "Betty! Betty! Betty!"

Anxious hours followed, in which Betty shared. Her first thought in the morning was for the latest news of John; her last, a prayer that he would spend a quiet night. She made many a dainty dish to tempt his appetite, but labored in vain.

At length John's nurse assumed an unprofessional responsibility. "I think," she said to Betty as she stood at the door answering her inquiries, "that before he will recover some worry must be removed from his mind. He—he's evidently in love with some one who doesn't reciprocate!"

Betty's glance fell. Then she raised her eyes bravely. "But she does!" she said. "Could—could I see him and tell him so?"

John's quick recovery dated from the moment when, startled out of all reserve at the white, drawn face of the man she loved, Betty fell on her knees at his bedside and whispered brokenly, "Oh, my darling! My darling!"

The doctor prescribed a sea voyage to assist John's convalescing, and Betty not only acquiesced but made all arrangements, even to insisting that he must have a nurse along, and in order to provide one she would marry him! And John, weak but beautifully happy, could only thank heaven he had saved sufficient to keep them going at least until he got into harness again.

*OUT OUR WAY* *BY WILLIAMS*

Some time afterward, one glorious breezy afternoon, Betty, leaning against the rail with John watching the scudding wake of their steamer, heard a queer little chuckle from her husband.

"What is it, dear?" she asked curiously.

"I was thinking," said John whimsically, "how very much surprised Miss Deborah Perkins must have been when she read I love you sweetheart?" in her radish bed!"

But not until the two of them were back at home again did they learn the true efficacy of John's vegetable message. Blushing like a bride herself, Miss Perkins welcomed them at the door, and after proper inquiries as to Mr. Bradley's health, with becoming hesitation she broke the news.

"Yes, Miss Betty, I'm Mrs. Ferguson now. Yes, ma'am, I know you'd be surprised. He's that reserved you wouldn't have thought it of him. But he's clever, for all he's Scotch. He writ in radishes what he thought of me. And when I see him coming up in such lovely sentiments I went straight to him and said, 'Ferguson, I'm yours. We'll be married tomorrow.' And we was. And I'm sure if he hadn't thought of such a lovely way to get around his bashfulness we'd each been single yet!"

## BERTON BRALEY'S DAILY POEM

**TREASURE-TROVE**
BY BERTON BRALEY

A mighty good thing to seek after,
Is laughter;
The blood, when we chuckle and snicker,
Runs quicker.
The doctors will tell you a snigger
Gives vigor,
And jokes, if they're not too sardonic,
Are tonic.

It's really much wiser to frivol
Than suivel;
And folks shouldn't ever be frowning
Or glowning.
The fellow whose jests set us shaking
And quaking
Is making life fuller of savor,
And braver!

While out of our throats we can jiggle
A giggle
We'll face any fate with no flurry
Of worry.
So here's to the bird at whose chafing
We're laughing,
Who turns all our woes and our troubles
To bubbles;
He's worth more than solemn-faced preachers
Or teachers,
And so on his brow we are pressing
Our blessing!

## *AUTO LICENSE NOT REQUIRED BY STATE ON CITY TRACTORS*

MADISON, Wis.—Tractors operated by gasoline on city streets do not require an automobile license, John F. Baker assistant attorney general, held Thursday. He instructed Winifred G. Zabel, district attorney of Milwaukee county that such machines were not motor vehicles within the meaning of the statute.

"It should be noted that the state department for the last three or four years has been construing the law to exclude tractors from the class of motor driven contrivances for the operation of which a license is required," Mr. Baker said.

**A Stubborn Cough Loosens Right Up**

This home-made remedy is a wonder for quick results. Easily and cheaply made.

Here is a home-made syrup which millions of people have found to be the most dependable means of breaking up stubborn coughs. It is cheap and simple, but very prompt in action. Under its healing, soothing influence, chest soreness goes, phlegm loosens, breathing becomes easier, tickling in throat stops and you get a good night's restful sleep. The usual throat and chest colds are conquered by it in 24 hours or less. Nothing better for bronchitis, hoarseness, croup, throat tickle, bronchial asthma or winter coughs.

To make this splendid cough syrup, pour 2½ ounces of Pinex into a pint bottle and fill the bottle with plain granulated sugar syrup and shake thoroughly. If you prefer, use clarified molasses, honey, or corn syrup, instead of sugar syrup. Either way, you get a full pint—a family supply—of much better cough syrup than you could buy ready-made for three times the money. Keeps perfectly and children love its pleasant taste.

Pinex is a special and highly concentrated compound of genuine Norway pine extract, known the world over for its prompt healing effect upon the membranes.

To avoid disappointment ask your druggist for "2½ ounces of Pinex" with full directions, and don't accept anything else. Guaranteed to give absolute satisfaction or money promptly refunded. The Pinex Co., Ft. Wayne, Ind.

# SHERIFFS' POSSES CAN'T COLLECT FOR SERVICES IS RULING

### Men Ordered Out by Officers to Aid in Criminal Hunt Not Entitled to Pay

MADISON, Wis.—Posses ordered out by sheriffs to aid in the enforcement of law or the apprehension of criminals cannot compel payment by the county for expenses incurred by the performance of this duty or for their services, William J. Morgan, attorney general, ruled Thursday in an opinion given to E. S. Jedney, district attorney of Jackson county.

The attorney general held that 25 men ordered out by the Jackson county sheriff last May were not legally entitled to pay for their work. They had spent several days looking for a man who killed a resident of the county.

"Persons called by a sheriff to assist him are a posse comitatus, and refusal to join the posse upon being directed by the sheriff to assist him in the performance of his duty would render those so refusing liable to punishment," Attorney General Morgan declared. "Such refusal was at common law an indictable offense.

"Persons summoned to assist as a posse cannot compel payment by the county for their services or expenses. They are performing a duty of citizenship for which they are no more entitled to compensation without special provision therefor in the statutes than they would be entitled to compensation for military service if the government made no such provision."

Mr. Morgan advised, however, that the district attorney was empowered to certify to the county board that the sheriff be allowed reasonable compensation for the pursuit of a criminal, and in this way secure payment for services of the posse. This, he said, was not a matter of right and the county was without authority to directly pay the men.

## CAMPBELL LIBRARY CLUB MEMBERS HAVE SPLENDID PROGRAM

THE MEMBERS of the Campbell Library club meet on Wednesday for 12 o'clock dinner at the home of Mr. and Mrs. August Pralle, Jr. Twenty-one members were in attendance. The subject of the lesson was "The Middle West," with Mrs. W. A. Tripp as leader of the day. The lesson was in charge of Mrs. Wendall Moes and Mrs. Sidley Hauser, their subject treating of the middle west.

Mrs. Moos gave a general review fo the states of Arkansas and Missouri, their resources and progress, specializing St. Louis and Kansas City as the leading cities of the latter state. She also spoke interestingly of the people of these states.

Mrs. Moos gave a general review of Minnesota and the Dakotas, giving an excellent description of pioneer days and of the Indian massacres of the two former states, following up with later developments and the "up-to-date" today. The wonderful management in state affairs, the development of the country with its fine crops of the river valley.

Mrs. Hauser having spent two years in the Dakotas, told of many interesting things, among them the changes in twenty years from sod houses to the higher civilization, especially bringing out the change of crops. One of the main thoughts emphasized was that Wisconsin was the most progressive along educational lines, being far ahead of the other states.

Miss Borresen of La Crosse spoke for the rural library, the best way to procure a library for the rural people, in which she formulated plans and advanced some splendid ideas. An interesting discussion followed.

The next meeting of the club will be December 6, the hostesses to be announced later.

* * * *

THE R. N. A. Crochet club will meet with Mrs. Matt Spah, 1114 Winnebago street, Friday afternoon.

A delicious lunch was served.

* * * *

THE BASKET shadow social held at the Sand Lake school last Friday evening proved a great success. The sum of sixty-five dollars was made, which is the beginning of a fund for a piano. No small measure of the success is due to Mr. Henry Wick who installed electric lights in the school for the occasion.

* * * *

MRS. T. J. SCHOMERS, 1402 George street, entertained the Neighborhood club Hallowe'en eve. Five hundred was played and the prizes were won by Mesdames Brisback and Herrington and Messrs. Atkinson and Galky. A light lunch was served. The decorations were in accord with the holiday.

* * * *

MISS MARTHA PATSCHULL was pleasantly surprised at the home of Mrs. Gus Patschull, 712 Liberty street, Monday evening in honor of her birthday. Games afforded the evening's entertainment and at 11 o'clock a dainty luncheon was served. The table was prettily decorated with Hallowe'en colors. Miss Patschull received many pretty gifts. Those present were the Misses Lucy and Emma Harder, Nattie Kreuger, Ruth Pitzner, Eleanor Jiracek, Mesdames Gus Patschull, Sidney Walters, Norman Radtke, William Stellick and Walter Harder.

* * * *

THE QUEST class of the First Baptist church will be entertained Friday evening at the home of Mrs. Guy Wisland, 1115 South Seventh street.

### For a Bright Child

If you are young and simply dread
To eat the crusts that grow on bread;
And if your parents say you must
Because there's lots of health in crust:
Don't make a fuss or fret or cry;
A bit of common sense apply.

Give to each crust a little lick,
Then in your pocket slip it quick.
This must be done quite carefully,
But if you're smart they'll never see.
And then when you go out to play,
Just throw the horrid things away.

## RACING FOR A KODAK

You don't need a velocipede to win the $10.00 Autographic Kodak or one of the expensive Photo Albums we are giving away this month—and every month, too, for that matter. Our three best customers on photo finishing during each month win prizes. The only restriction is that the same person can't win the same prize twice. Last month the $10.00 Kodak was given for only $7.85 worth of work. YOU can beat that. It's easy to win, send finishing in—that's all you have to do. BUT START NOW!

## Girlish Complexion Now Easily Acquired

If your complexion's bad just try this simple, harmless home treatment. It will prove a revelation to you. This evening before retiring cover the entire face with a thin layer of ordinary mercolized wax, which you can get at any drug store (one ounce will do). In the morning wash this off with warm water, followed by a dash of cold. Fine particles of the soiled and lifeless scarf skin adhere to the wax and are removed with it. Repeat the treatment nightly until the entire surface skin is absorbed in this way. Result—the loveliest natural complexion imaginable. The fresh, new skin then in evidence is soft and velvety in appearance, delicately tinted with the bloom of youth.

The old outer skin comes off so gradually there is no pain, no inconvenience, and no detention indoors. Freckles, moth patches, liver spots, pimples, any surface eruption is of course removed with the skin itself.

## LA FOLLETTE BARRED FROM FAIR GROUNDS BECAUSE OF RENTAL

### Building Not Available Unless Fee of Thousand Dollars is Paid Say Officials

ST. PAUL, Minn.—Members of the executive board of the Minnesota State fair explained Thursday that refusal of the use of the Hippodrome at the fair grounds for a meeting to be addressed by Senator La Follettee was based on a decision that the building should not be made available for any public meeting unless a rental of $1000 was forthcoming.

Recently the building was reopened for a public meeting, addressed by William J. Bryan and the cost to the fairboard was $447. This resulted in a decision that no further public meetings could be held this fall unless a rental of $1,000 was paid. It was under these instructions of the board that Secretary Canfield denied use of the building for the La Follette meeting.

Mr. La Follette will speak at the Auditorium here Friday evening.

## Normal Notes

The "Phy Eds" held their annual initiation Tuesday night, and a good time was enjoyed by all, even some of the freshmen. Much delight was shown when Ole Gunderson was brought forth and treated as a lowly frosh. Ole was able to escape last year but was not allowed to this time. He was made to go barefooted, was made to teach a group of freshmen how to dance, attired in a girls "Phy Ed" costume, and try to calm Joe Shields who proved a cut-up of the first class.

The Men's Literary society held their second meeting of the year Monday night.

The "L" club held their meeting Wednesday night at the Doering hotel where they had dinner. A short business meeting was held following the dinner.

The Buskin club is planning to put on two plays in the near future. Much interest is being shown in these productions because the undertakings of the Buskin club never fail to be successful.

Many of the students are planning to follow the team to River Falls Friday.

### Slinker Slouch the Style

To slink or not to slink? That is evidently to be an all-important question this season among women. For many dresses so tightly swathe the figure that the "slinker slouch" is an absolute necessity. On the other hand, picturesque Victorian dresses are to be seen complete with large crinolines, berthas and posies. Have the fashion designers for once catered for the slim and—the not so slim?

### Tons of Honey

There are literally tons of honey in Australia, which could be gathered and sent abroad if it were profitable to do so. The bee is very busy in that country.

# We found 5 ways to better Shaving Cream

Gentlemen:

We are soap experts, and have been for 60 years. The leading toilet soap of the world—Palmolive—is one of our creations.

Years ago we set out to make a new-type Shaving Cream. We aimed to excel all others in five important ways.

We made up and tested 130 different formulas. Thus, step by step, we attained these results in Palmolive Shaving Cream.

*These 5 effects*

It multiplies itself in lather 250 times.

It acts quickly, softening the beard in one minute.

The lather maintains its creamy fullness for ten minutes on the face.

The bubbles are strong. They support the hairs for cutting, while weak bubbles let them fall down.

The blend of palm and olive oils makes the after effects delightful.

We ask you to test this Shaving Cream, as millions of men have done. Accept the free test we offer.

Do this in fairness to yourself and us. Learn what we have done to please you. Cut out the coupon now.

# REGULAR TACKLE OF ILLINI TEAM IS INELIGIBLE

### Allison Augur Admits Professionalism to Athletic Director

### ATHLETIC DIRECTORS AGREE TO ATTACK PROFESSIONALISM

### Flay Wisconsin for Giving Information to Press

URBANA, Ill.—Allison Augur, regular tackle on the Illinois football team, was declared ineligible Thursday morning, five minutes after being questioned by George Huff, director of athletics, about charges made by Wisconsin athletic authorities that four of Illinois' players now on the squad took part in games at Taylorville last fall. Other players accused, Robinson, halfback, and Yates, fullback, declared they did not play.

Director Huff declared that, under an agreement made last year, no publicity was to be given to any information sent from one school to another concerning ineligibility of athletes, and that Wisconsin's act in making the matter public was not justified. His complete statement concerning the ineligibility of Murry and the part Illinois took in the matter follows:

**Agree to Attack Pres**

The directors of athletics of the conference at several meetings informally agreed to make strong attacks on professionalism in their own institutions and assist each other as well by furnishing any information which might come to them. It was said that such information would be received without resentment, with the right kind of spirit and that there should be no publicity. The University of Illinois entered into this account with good faith.

"Last January when we learned that nine of our players had participated in the Taylorville-Carlinville football game, we barred them immediately. In September of this year we learned that another candidate for the Illinois team had played in this game and we barred him as well.

"In September we learned that Murry of Wisconsin had also played in the Taylorville game. We immediately informed Wisconsin in accordance with our agreement and because we imagined the university would be anxious to have this information, we kept the matter entirely secret, giving no information to the press. Wisconsin, however, retained Murry on its squad and later played him in conference games much to our surprise. Had this case been of a more ordinary nature perhaps we would have dropped the matter. It seemed unfair, however, that Illinois, which without pressure from outside, had barred ten men, should be obliged to meet Murry on the gridiron.

"Accordingly, the conference eligibility committee was notified but Illinois continued to keep the matter private and nothing was given to the press.

"Today at the same time we heard that the conference committee had found Murry ineligible, we were informed by Wisconsin that they had information regarding four members of the Illinois squad to the effect that they have participated in games as members of the Taylorville team.

"We are astounded that Wisconsin had given this charge to the press in direct violation of conference ethics.

"We wonder if Wisconsin has had this information for any time, why it has not been furnished previously.

"We have had no opportunity to investigate the charges of the Wisconsin athletic council. If this develops we will not wait until the conference eligibility committee has to act. We will do the banning ourselves.

"But I think that this broadside charge is untrue. It looks very much as if it is launched by Wisconsin right at this time to cover up in the public eye the glaring fact that Wisconsin has played Murry although notified about him in September.

"But we began an investigation immediately. In five minutes Augur, regular tackle, admitted he had played in a game in Taylorville, not in the notorious game but in another contest a week previously. Augur was immediately banned for participation in an outside athletic contest during the time.

"We are investigating the other players but doubt if any are implicated. Robinson has a clean slate. Wisconsin is confusing Green, our present center with Earl Greene who played guard last year and was debarred for playing in the Taylorville game. Yates has not played here. I think these boys are innocent. No charges against Durant has been preferred."

**Badgers Deny Charge**

MADISON, Wis.—The University of Wisconsin athletic department Thursday afternoon countered the statement made by George Huff, director of athletics at Illinois, that Jab Murry, Badger tackle, had been played in conference games when it was known he was ineligible.

In answer to the expression from Illinois the department issued the following statement:

"Regarding Murry of Wisconsin and Illinois' spasm of virtue over the silence about him, except to Wisconsin and the eligibility committee of the conference these facts are not broadcast by George Huff and are urged by us:

"Murry was not registered and attending no institution at the time he played on the Taylorville Legion team. This point is the crux of the whole matter, for there is a conference rule that no athlete may compete on any outside team while attending college. All the Illinois players were registered at Illinois at the time they played.

"Murry was a home boy and regular member of this team, all the season, and was not an imported article."

## FREDERICK WILLIAM ARRIVES IN DOORN FOR ROYAL WEDDNG

DOORN, Holland.—By The Associated Press.—Former Crown Prince Frederick William arrived in Doorn Thursday for the wedding next Sunday of ex-Emperor William and Princess Hermine of Reuss. Frederick William brought with him a trunk full of baggage, most of which was presumed to be uniforms for the various functions. He avoided attention by slipping into the castle through a garden gate.

The measure for maintaining secrecy as to her nuptials are increasing as the wedding approaches.

## MASTER BUILDERS PROTEST AGAINST UNION ORDINANCE

(Continued from page one)

exact bribes and graft from contractors doing city business, which practice has become a curse in the larger cities.

"Because of the foregoing and other reasons the master builders have adopted the following resolution:

"Resolved by the Master Builders association of the city of La Crosse that we condemn the said ordinance for the reasons above given, and be it further

"Resolved, that we ask the common council of the city of La Crosse not to adopt said ordinance because the adoption of the same will not only increase the cost of all public work but will have its influence on all other work in the city and because it will result in the increase of the taxes of this city and retard building and drive away capital."

# HUSBAND AND WIFE DESERTED AT ALTAR SEEKING DIVORCES

### Lee Fetterly Alleges that Wife Deserted Him on Wedding Day and Refuses to Return

A husband and wife, each deserted within several days after the marriage ceremony, and a husband whose wife had neglected to see that she had been legally freed from her first husband before taking unto herself another spouse, have filed suits in circuit court for divorce and annulment.

Roy O. Gelman alleges that his wife, Mildred, whom he married in Winona January 16, 1919, had not been divorced from her first husband, Richard A. Stirneman, when Gelman married her. She represented herself to be an unmarried woman, Gelman declared, and Stirneman did not get a divorce from her until September, 1921, at Santa Barbara, Calif., two and a half years after she had been married to Gelman. He wants the second marriage annulled.

Mrs. Ruth Fetterly was married to Lee Fetterly on the morning of August 20, 1919, and deserted her newly-wedded husband on the afternoon of the same day, alleges Fetterly in his complaint. He asks for a divorce.

Mrs. Margaret Blankes, through her father and guardian, Edward Bonsack, seeks a divorce from her husband, Benjamin Blankes, who she charges deserted her three days after they were married, on June 21, 1921. Mrs. Blankes declares her husband left her, going to Milwaukee, saying that he never intended to live with her. Mrs. Blankes doesn't know where her husband is at present.

## HOOVER EXPLAINS FAILURE TO RACE AT LEGION MEET

DULUTH, Minn.—Walter Hoover, world's champion sculler in a statement to the Associated Press Thursday explained his failure to appear for the main event of the aquatic sports program—a race with Granville Gude of Washington, D. C. at the American Legion national convention at New Orleans last month.

His statement said: "The recent report that I refused to row at New Orleans is without foundation. In fact I was ready to carry out my part of the agreement but those in charge of the program of the convention made it impossible for me to do so."

The race was originally scheduled for Monday October 16, but was postponed twice and I found it impossible to stay over."

## LABOR LEGISLATION FAVORED BY PARTY OUTLINED BY ARNOLD

MARINETTE, Wis.—State Senator Louis A. Arnold, socialist candidate for governor, stated here in a speech Wednesday night that his party stands for such labor legislation as the basic eight-hour day in industry, sickness insurance, unemployment insurance and the establishment of a system of old age pension. He said that bills on these subjects were up for consideration at past legislatures and defeated by republican and democratic legislators.

Measures like these would be of direct economic benefit to the workers in the industries and would indirectly benefit the farming class and small merchants, he declared.

## LABOR HEAVY LOSER IN LOCAL ELECTIONS THROUGHOUT BRITAIN

(Continued from page one)

This, of course, is a very pleasing and satisfactory experience to the successful candidates. The spirit in which the unsuccessful accept defeat is always keenly awaited by the assembled voters because sportsmanship is such an important trait with the British.

This year the suspense over the result of elections will be over quickly as compared with the old pre-war days. All of the ballots will be cast this time on one day—November 15 and almost the entire membership of the new parliament will be known before the night of the 16th. Previous to the 1918 elections the voting and counting always had been spread over several days and when the fights were close there was always a long period of uncertainty and anxiety for the party leaders. One reason for the old system was that those who maintained residences in more than one constituency had a vote in each district. But now under a newer law, a man has only one vote irrespective of the number of places he can call home.

## CHRISTIANS BURIED ALIVE FOR REFUSAL TO ACCEPT ISLAMISM

WASHINGTON.— The Greek Metropolitan and ten priests captured by the Turks at Aivaily, were buried alive because they refused to embrace Islamism, according to a cablegram received Thursday from Athens by the Greek legation. Word also has been received in Athens, the message said, that all Greeks who remained in Aivaily and on the island of Moschonissia have been massacred and that wells in the vicinity, "are filled with the bodies of young girls," who drowned themselves to escape from the Turks.

Christians in Smyrna between the ages of 18 and 50, the legation was informed, have been deported and forced to hard labor, hundreds dying from hunger and fatigue.

**HAVE DARK HAIR AND LOOK YOUNG**

Nobody Can Tell When You Darken Gray, Faded Hair With Sage Tea

Grandmother kept her hair beautifully darkened, glossy and attractive with a brew of Sage Tea and Sulphur. Whenever her hair took on that dull, faded or streaked appearance, this simple mixture was applied, with wonderful effect. By asking at any drug store for "Wyeth's Sage and Sulphur Compound," you will get a large bottle of this old-time recipe, improved by the addition of other ingredients, all ready to use, at very little cost. This simple mixture can be depended upon to restore natural color and beauty to the hair.

A well-known downtown druggist says everybody uses Wyeth's Sage and Sulphur Compound now because it darkens so naturally and evenly that nobody can tell it has been applied—it's so easy to use, too. You simply dampen a comb or soft brush and draw it through your hair, taking one strand at a time. By morning the gray hair disappears; after another application or two, it is restored to its natural color, and looks glossy, soft and beautiful.

# OFFER TESTIMONY TO PROVE HAMMER SLAYER WAS INSANE

### Sister on Stand Tells of Instances of Insanity and Imbecility in Family

LOS ANGELES, Calif.—Cross-examination of the defendant's sister who detailed the alleged mental decay in her family tree, in support of the insanity defense, was planned for Thursday by the prosecution at the trial of Mrs. Clara Phillips, charged with having beaten Mrs. Alberta Meadows, 20-year-old widow, to death with a hammer.

The witness, Miss Ola Weaver, declared that her father, John Weaver, also the father of Mrs. Phillips, "was insane more than half the time and during the latter years of his life was completely insane" that her mother, Mrs. Hannah J. Weaver, now an invalid at Tampico, Mexico, was "subject to epileptic convulsions and was considered dangerous to herself and others;" that Henry Weaver, brother to the witness and the defendant, "was an idiot all his life," and that Mrs. Phillips had "spells."

## FATHER ORDERS JAP PRINCESS TO ADOPT FLAPPER STYLES

SAN FRANCISCO, Calif.—Princess Moto Ko Otani has arrived here, under strict orders from her father, Prince Otani, leader of Buddhism in Japan, to emulate the customs of the American flapper.

In a few days she will go to New York to study piano and violin.

Bobbed hair, long skirts—and the princess bemoans the fact that short skirts are no longer in vogue.—and all the accoutrements of the American flapper will be adopted by the Japanese princess.

## MISSING MAN TRAILED TO NORTHERN CITY

(Continued from page one)

it dragged and interest in the case seemed to flatten out. The police and sheriff's office were constantly on the job, eventually piecing together the history of the hunted man, his prison record in the Dominion of Canada, his trail in the United States and eventually locating him in Winnipeg.

**Warrant Issued Last Winter**

When District Attorney Reid left for Winnipeg, he had a warrant for Birmingham's arrest. He also had much evidence relating to various deals in which Birmingham played a part in La Crosse. The warrant for the missing man was issued last winter. It was obtained in county court, much secrecy shrouding the proceedings at that time. The writ was then relivered to the sheriff's office to be used whenever the occasion demanded instant action on the part of the authorities. Last spring after several suits had been filed in circuit court against Birmingham and judgments rendered, Judge Higbee informed the group of lawyers gathered before the bench, all of them interested in the Birmingham suits, that a warrant for the latter's arrest should be sworn out at once and delivered to the sheriff. When a warrant was sought, they were informed that a writ already had been sworn out and had been gathering dust in the sheriff's office for some months.

Birmingham's arrest has not been made as yet, nor has any definite information been received from District Attorney Reid as to the difficulties he is encountering in Winnipeg in bringing about the apprehension and extradition of his quarry. Word is expected daily, however, from the district attorney as to the progress he has been making.

**STOMACH UPSET?**

Get at the Real Cause—Take Dr. Edwards' Olive Tablets

That's what thousands of stomach sufferers are doing now. Instead of taking tonics, or trying to patch up a poor digestion, they are attacking the *real* cause of the ailment—clogged liver and disordered bowels.

Dr. Edwards' Olive Tablets arouse the liver in a soothing, healing way. When the liver and bowels are performing their natural functions, away goes indigestion and stomach troubles.

Have you a bad taste, coated tongue, poor appetite, a lazy, don't-care feeling, no ambition or energy, trouble with undigested foods? Take Olive Tablets the substitute for calomel.

Dr. Edwards' Olive Tablets are a purely vegetable compound mixed with olive oil. You will know them by their olive color. They do the work without griping, cramps or pain.

Take one or two at bedtime for quick relief. Eat what you like. 15c and 30c.

## REPAIRS TANGLE CAR SERVICE ON THE NORTH SIDE

Street car service on the north side lines is in a state of confusion Thursday due to repair work which is being done on the south bound track along the causeway. Cars going south have to back up and switch onto the northbound track on Caledunia street, making it temporary a single track line from St. Cloud street to the gas works.

To add to the confusion Thursday afternoon a car was derailed on the Caledonia street switch about 1:30, effectively blocking all street car traffic from both directions.

## KERMIT ROOSEVELT SAILS FOR ORIENT ON CANADIAN BOAT

VANCOUVER, B. C.—Kermit Roosevelt, son of Former President Roosevelt, is leaving Thursday on the Empress of Russia, a Canadian liner, for the Orient.

"There is no doubt in my mind," he said, "that the ruling of Attorney General Daugherty preventing sale of liquor on American ships will throw a great deal of business towards Canadian ports."

Mr. Roosevelt declared that the ban on alcohol was not the reason he was traveling on a British vessel.

## BERNSTORFF WANTS GERMANY TO ENTER LEAGUE OF NATIONS

BERLIN.—By The Associated Press.—Count von Bernstorff, former ambassador to the United States, writing in his magazine, "Democratic Germany," advocates Germany's entrance into the league of nations.

"We do not want to force the burdens of a new war either on our own people or the rest of the world," he writes. "But we will battle for our rights as long as we have tongue and pen, and for that Geneva is the proper place."

# STORES TO CLOSE ON ARMISTICE DAY MERCHANTS DECIDE

### Unanimously Voted to Close all Day November 11; Dollar Day November 16

IT was unanimously voted at the meeting of the merchant's bureau of the Chamber of Commerce, held Wednesday evening, that all the members of the bureau close their establishments all day on November 11, Armistice Day. Carl Burgchardt, post commander of the Roy L. Vingers post of the American Legion, and Myron S. Locke spoke in favor of the Armistice Day closing.

Thursday, November 16, was designated as the next dollar day by the merchants, who also discussed plans for the "shop early" and Christmas opening campaigns.

A letter from the director of the Rockland band thanking the Chamber of Commerce for the courtesy shown the band during the Ford Day celebration, and also expressing thanks for the prize received on that day, was read at the meeting.

Following the business meeting Alvin E. Dodd, manager of the domestic distribution department of the Chamber of Commerce of the United States gave an interesting and instructive illustrated lecture on "Stock Control and Turnover." Mr. Dodd answered many questions on his subject put to him by the merchants. The merchants and other business men of the city were congratulated by Mr. Dodd for their many manifestations of co-operative spirit.

**COAL OUTPUT BOOMING**

WASHINGTON.—Coal production made another high record Tuesday, according to returns compiled by the American railway association. The day's anthracite output amounted to 6,976 cars, an amount greater than that mined in any previous day since the conclusion of the coal strike. Bituminous amounted to 32,230 cars.

**"Gets-It" for Corns Costs Little**

If so-called corn "cures" have only made your feet more sore and tender,

don't despair. For instant, complete, permanent relief is guaranteed by the new method. A few drops of "Gets-It" removes any old or new, hard or soft corn from any foot. It peels off in your fingers.

**The Trust Company and Life Insurance**

There was a time when estates consisted solely of the property which men themselves had accumulated.

Nowadays, a most important part of many estates, left both by rich men and those in moderate circumstances, is life insurance.

In its capacity as a conserver of estates, the modern trust company also protects life insurance funds.

Insurance can be left in the care of this company, as trustee, for the benefit of those you may name. It will be invested and distributed in accordance with your wishes, expressed in your will or in a living trust.

# BURDEN OF CAMPAIGN AGAINST G. O. P. IS BORNE BY A WOMAN

## Mrs. Hooper Pursues Fight Against La Follette Without Funds or Organization

## ATTACKS LA FOLLETTE ATTITUDE ON WAR AND THOSE WHO FOUGHT

### Scores Hostility of Opponents to League of Nations

MADISON, Wis.—By The Associated Press.—One woman, alone, without large campaign funds and unsupported by a party organization, is carrying the only fight being made against the most powerful political machine ever developed in Wisconsin, led by a man whose personal leadership is unexampled in the history of the state.

"For United States senator, Jessie Jack Hooper," her name will read on the November general election ballot and it will appear in the column headed "Independent." Failure of the democrats to poll enough votes in the primary election to entitle them to a place on the ballot gives Mrs. Hooper the legal right to have only the words "Independent Democrat" after her name.

Yet handicapped by lack of united party backing, unsupported by any machine, this Oshkosh woman, who for years was a national leader in the fight for woman suffrage, says that she is unafraid of Senator Robert M. La Follette, her opponent.

Where Wisconsin men, political leaders in the fight against La Follette, have thrown up their hands and quit, Mrs. Hooper has stepped in to carry on the contest. She is asking republicans as well as democrats to come over to the independent column and vote for her as a protest against the things Senator La Follette stands for.

She believes that the people of Wisconsin do not approve of the position Senator La Follette took during the world war, that they resent his implication that the Americans now realize that they were "boobs," as he is reported to have said, for entering the conflict.

Mrs. Hooper is attacking her opponent's hostility to the league of nations or any understanding with European nations, and is urging participation of the United States in world affairs. She is strongly opposed to the Fordney-McCumber tariff law recently enacted and is a staunch prohibitionist.

When the principal democratic candidates were ruled off the general election ballot and many were thinking of quitting the race, Mrs. Hooper told the Associated Press that she had never quit a fight in her life, and would carry through her contest against Senator La Follette although she realized that to bring about his defeat would be a tremendous task.

Since then she has toured the state in an extensive speaking campaign, bringing her views before large audiences in many sections of Wisconsin.

Senator La Follette has made practically no campaign for re-election. He has left the state during the final week before balloting to aid Henry Shipstead of Minnesota and Lynn J. Frazier of North Dakota in their campaign for election to the United States senate.

Yet his machine has been active, and not the slightest apprehension is expressed in republican headquarters concerning the outcome of the election. Wisconsin for 30 years has been overwhelmingly republican, and no independent candidate has ever been elected to the United States senate or state office since the enactment of the primary law.

But Mrs. Hooper says that she is in the fight to the end. She is asking that voters cast their ballot for her, regardless of party, as a protest against the present senior Wisconsin senator.

### Return of the Cape for Men

A prominent London tailor reports that there is a tendency among those men who aspire to be well clothed to "stiffen up" in the matter of evening dress. They consider that the present laxity has gone too far, and so it is more than likely that the cloak—or Inverness cape—will once again be a sine qua non of evening wear. Very soon, therefore, we may have to sally forth in the crimson silk linings that have not been seen for many years.

### Country's Forests Making Money

Twenty-eight states are about to have their treasuries enriched by sums from the United States government, which are derived by timber sales; razing permits or other sources of national forests, revenues for the last year in the operation of the national forests. The sum aggregates about one million dollars. California, where the national timber lands last year returned to the government $528,765, leads the list and will receive $157,191 for the school card road fund and $628.75 for national forest roads and trails. Oregon is second, while Idaho, Arizona and Colorado follow in the order named.

# FAMOUS AUTHOR AND DIPLOMAT DIES ON VISIT TO VIRGINIA

### Death Comes Suddenly to Thomas Nelson Page at Home of Relatives

RICHMOND, Va.—Thomas Nelson Page, former ambassador to Italy and widely known author, died at the home of relatives in Hanover county, Va., Tuesday, according to a report received here. His death was sudden. Richmond relatives did not hear of his illness until this morning. Although he served as American ambassador at Rome for six years Mr. Page was best known for his literary productions. He was appointed ambassador to Italy in June, 1913, and served in that capacity until August, 1919. He was born April 23, 1853, in Hanover county.

#### Received Many Degrees

As a youth Mr. Page attended Washington and Lee university. In 1874 the degree of bachelor of laws was conferred on him by the University of Virginia. Subsequently the honorary degree of doctor of laws was conferred on him by Washington and Lee, Tulane university and William and Mary college and the degree of doctor of literature by Yale, Harvard and Washington and Lee.

Mr. Page was twice married, in 1886 to Miss Anne Seddon Bruce, who died in 1888, and in 1893 to Mrs. Florence Lathrop Field, widow of Henry Field of Chicago. Her death occurred last year.

Mr. Page was author of a number of books, among them "Marse Chan," "Two Little Confederates," and "Gordon Keith." In 1920 he produced "Italy and the World War," and two years previously wrote in Italian "A Life of Thomas Jefferson."

#### Visiting in Virginia

Until recently Mr. Page had been making his home in Washington but he closed his house there a few weeks ago with the intention of visiting relatives in Virginia and other states.

In the summer of 1919 Mr. Page came to Washington to confer with officials regarding the details of peace and reconstruction in Europe.

# *PASTOR SLAYER IS SATISFIED WITH A VERDICT OF GUILTY*

STATESBORO, Ga.—"I will not appeal. I am well satisfied with the verdict."

With a pleased expression on his face, Elliott Padrick, former minister, confessed slayer of his girl wife and mother-in-law, Mrs. Mamie Lou Dixon, made this statement after being found guilty of murder and sentenced to life imprisonment last night in superior court.

Padrick's dramatic sermon to the jury, in which he declared he killed his wife because of her indiscretions, was the first incident of its kind in a Georgia court. With this exception and at the time the jury filed into the court room with its verdict, the former minister took no interest in his trial.

# MAY ROBSON IS CHARMING IN HER NEW PRODUCTION

### Local Audience Delighted With "Mother's Millions" at the Theater

May Robson, always adorable, completely captivated old friends and new admirers in a brand new vehicle, "Mother's Millions," at the La Crosse theater Wednesday night. The play is admirably adapted to her versatile talents and served as a background for inimitable characteristics and mannerisms which alternately moved the audience to laughter and tears.

The comedy element predominated, however, throughout the production as Miss Robson ruled her little family with an iron hand as well as dominating and worsting a group of crafty financiers who sought to wrest from her the huge fortune she had built up, but who lost out through the machinations of a woman who was far more clever and resourceful than they.

Seemingly stern and unreasonable in her dominating manner with her family, the stern reserve which cloaked real affection was finally thrown aside and the mother love cropped out in all its richness as displayed by a woman possessed of a big heart and ripe dramatic power.

Miss Robson has splendid support in her new play. Lillian Harmer, who has been with her for years, appeared again in the role of a devoted servant. Adelaide Chase was charming in the part of the daughter. Russell Hicks as the son of the star, and Walter Greaza as the sweetheart of the daughter, were good. Other members of the cast were well fitted to their roles, and the play was presented in smooth, finished style which completely satisfied the audience.

# KEOGAN DEVELOPING DEFENSIVE PLAY FOR WISCONSIN RAPIDS

### Local Eleven Will be Fully Prepared for Battle Away from Home

### NUMBER OF CHANGES MADE IN LINE-UP THIS WEEK

### Substitutions Available for Every Position

Intensive workouts on the defensive department of the game this week leaves the high school football squad fully prepared for the coming game at Wisconsin Rapids.

Special attention has been paid to the defensive play as Wisconsin Rapids possesses an unusually heavy team for a high school, combining a heavy charging line with a fast driving backfield. Their quarterback is a shifty open field runner. Nason, who last year played on a navy team, has returned to high school and now occupies a halfback position. He is a very dangerous man, possessing the triple threat of run, kick or pass, and is rated as one of the best dropkickers in the state.

A number of changes have been made in the La Crosse lineup. Buck Birnbaum has been shifted from substitute quarterback to Zoerb's halfback position. Weigent will be put in as quarter in case Eeger is unable to occupy that position. The regular back field lineup as used in previous games will start the game Saturday with the possible exception that Art Frey will work as fullback in place of Rendler.

With the development of Fritz, Wheaton, Kosiab and Ed Frey, in addition to the regular pair, Coach Keogan now has three sets of ends at his disposal. Substitutions for every other position are available. Therefore the entire team is strongly reinforced with men capable of filling the regular's boots if necessary.

The greatest opposition thus far this season is expected to be furnished by the Wisconsin Rapids aggregation. La Crosse's hopes for the state title largely hinges on this game.

## LA CROSSE MAN IS APPOINTED AS BOXING INSPECTOR

J. P. Moore, La Crosse, has been appointed inspector for the Wisconsin boxing commission in the western district of the state, it was announced Tuesday.

Mr. Moore was a member of the old commission here and was temporarily appointed inspector for the first Legion show here. His appointment is now made for one year.

## SPORT OF ALL SORT

Miller Huggins by again accepting the management of the New York Americans, proves that he is a glutton for punishment.

Billy Miske's comeback certainly was nothing over which Jack Dempsey could enthuse. Looks like an idle winter for the champion.

Despite the walloping the Yankees received from the Giants, Ty Cobb insists the Yankees are the greatest team in either major league. Wonder if Huggins believes it.

Looks very much as if Catcher Schmidt of the Pittsburg Nationals had a press agent. It's a quiet day when he doesn't break into print.

The slogan in the west relative to Iowa by all other "Big Ten" teams is "Beat the team that beat Yale." Coach Howard Jones is in for a busy fall.

Cy Young and Amos Rusie, star pitchers of other days, insist there is one sure way to stop home-run hitting, use high balls. Present day pitchers ask where are you going to get 'em.

Champions who fade seldom come back, but Willie Hoppe looks as if he might be the exception. Hoppe is training faithfully for the coming billiard tournament and feels confident he will regain the title he held so long.

Rogers Hornsby, in explaining how he supplanted Babe Ruth as the home-run king of the majors, very modestly says: "Either the ball is livelier, the fences shorter or the pitchers poorer. I swung at the ball in the same old way, but when I hit it, it sure went much farther."

The team of major league players now on their way to the orient will play the first game with Keio University at Tokio on Nov. 4. The closing game of the trip will be at Manila on Dec. 30.

# DONALD MURRY BARRED FROM BADGER ELEVEN ON PROTEST OF ILLINOIS ON THURSDAY

### Regular Tackle of Cardinal Will be Out of Gopher Clash; Richards to Appeal Decision; to Protest Five Illinois Regulars

MADISON, Wis.—Donald Murry, regular tackle on the University of Wisconsin football team, was declared ineligible for further competition in conference sports Thursday by the eligibility committee of the western conference. He will be barred from the Minnesota game Saturday.

**Protest from Illinois**

The protest on Murry came from Illinois, and as a result Coach John R. Richards said Thursday that he would protest five present Illinois players.

Murry is reported by the Illini to have played with the Taylorville team in the notorious Taylorville-Carlinville game of last fall, which resulted in the disbarment of a number of Illinois men.

Wisconsin is now going to protest five Illinois regulars, according to Coach Richards.

"At the present time," the Wisconsin coach said, "there are five men on the Illinois squad who have violated the competition rule of the conference and who had played on this team during the past two years. They are Green, center, who played in the Taylorville game; Augar, tackle, who played at other times; and Yates, Robinson and Durant. All five men will be protested by Wisconsin."

**To Appeal Decision**

Appeal will be taken from the decision of the conference committee, Coach Richards declared, saying that he would make a fight to the finish of the case.

Murry in signed affidavits declares that he was in the Taylorville contest as an amateur and accepted no money. After a careful investigation by the Wisconsin athletic council it held that the tackle had complied with all conference rules, and the council says it knows of no reason why the conference committee should make a different finding.

## HUPMOBILES STILL GOING STRONG WIN THREE WEDNESDAY

Rolling totals of 906, 897 and 909, the Hupmobiles continued their march of three victories at a time in the Commercial bowling Wednesday night when they defeated the Wisconsin Minnesota Light and Power company. The Hups have skidded into the gutter on but one occasion this season, having won 20 games and lost one.

Winning three games from the Moose while the Tribune was taking but two out of three from the Matthews company, the Gateway Grocery team went into a tie with the printers Wednesday night for second place. The Tribune won the first two but were unable to cope with the 899 hung up by the opponents in the final fling.

By taking three from the Tri-States the Stavrum and Fraser quintet rolled into third place. The Ideal Wet Washes were able to grab two from the Eagles, the Tag Harts winning as many from the Marinellos.

# RIVER FALLS IS NEXT CONFERENCE GAME FOR NORMAL

### Keeler's Squad Departs Friday Morning to Meet Up-state Aggregation

### TEAM EMERGES FROM Y. M. C. A. CONTEST MINUS GREAT INJURY

### Light Signal Practice Scheduled for Thursday Night

Coach Keeler's team will be on the road for the next two weeks. Friday morning the team leaves for River Falls, where they will play their second conference game. River Falls has one of the best teams in the conference this year, and Coach Keeler is preparing for a hard battle. Whether or not La Crosse stays in the championship race depends on this game. A victory will put La Crosse well up among the leaders.

The team came out of the Y. M. C. A. game minus the usual amount of injuries. Dundas was the only man who was not able to report in a suit this week because of a wrenched ankle. Mattison's boils are almost healed and he will be in "pink of condition" Friday. Poscover has been out all week and was at his old job last night in scrimmage. Kilian has a badly infected finger but with care it should be healed by Friday.

The team went through signal practices Monday and Tuesday, and Wednesday a hard scrimmage was held. The field was sloppy and straight football had to be used. In spite of this the line opened holes for Huchins, Murphy and Ellinger to go through.

A light signal practice will be held Thursday before the squad leaves Friday morning. The names of the men who will make the trip have not been given out.

## MICKEY WALKER BESTS JACK BRITTON FOR WELTERWEIGHT TITLE OF THE WORLD AT MADISON SQUARE GARDEN WEDNESDAY NIGHT

NEW YORK.—A grinning, towsel-headed young fellow from Elizabeth, N. J., is welterweight champion of the world Thursday because he had absolutely no respect for old age, wisdom and cunning when he ran athwart them at Madison Square Garden Wednesday night. He signs his checks Michael Edward Walker, but the boys call him Mickey and his appearance doesn't belie the aptness of the monicker.

Mickey Walker is the new champion and Jack Britton, the sage of the ring, is again an ex-champion. It is not exactly a new role for Britton, but it appears likely to be a permanent one now. Jack held the title for nearly a decade, first losing it to Ted Lewis and later regaining it from the same man.

The fight was a rattling affair from the gong and when the 15th round ended and the battered champion was still on his feet the crowd rallied to the cry of Joe Humphries, the veteran announcer, and gave three cheers to what Joe called "the best champion who ever lost his title in this arena."

Walker led from the first and even though somewhat wild, penetrated the masterly defense of Britton at once, landing numerous damaging blows and putting the champion on the defensive. Britton went to the floor nearly half a dozen times, once from the combination of a light tap and a stumble, again apparently to rest himself, and again when the gong saved him, because his aching stomach wouldn't stand another drive.

## BUDDY REYNOLDS OF NORMAL WILL FIGHT ON MONDAY

### Football Player Will Meet Chris Gourdoux in Legion Semi-windup

Buddy Reynolds, who will battle Chris Gourdoux in the six round semi windup of the American Legion boxing show next Monday night, November 6, at Yeomen hall, is a student at the La Crosse normal school. He has been playing halfback on the football team a part of this season, and is always in good condition. He had a lot of ring experience in the army, both in this country and on the other side. Since his discharge he has met such well know mitt artists as Sailor Perkins, Young Jensen, and Italian Joe Grimm.

He is confident he will make a good showing against Gourdoux when they meet. He packs a husky wallop and likes to mix it so, every round is expected to be a battle.

Chris Gourdoux is a rugged boy from up on the Flambeau river, where he operates the "Sunset Ranch." His place is very popular with sportsmen who enjoy good fishing and hunting. Gourdoux is an athlete of no mean ability and always keeps himself in good shape for fighting. He was born and raised in the north woods and everyone knows the caliber of a French-Canadian lumberjack when he gets tangled up in a fight.

Gourdoux has fought at Eau Claire, Chippewa Falls and Spooner, and is a favorite with the fans because he is always fighting while in the ring. The Gourdoux-Reynolds affair promises to be a thriller.

## IN THE MORNING PAPERS

### A Summary of the News

ROME.—Premier Mussolini of Italy demands that all classes submit to strict discipline and promises liberty to the press if it proves it will not abuse it.

WASHINGTON, D. C.—United States government is collecting millions of dollars a month through liquidation of tax claims and payment of back taxes.

NEW YORK. Governor Miller of New York tells throng at Cooper union hall that he will be glad to enlist under the banner of Secretary Hughes for president some day.

# MINNESOTA EXPECTS GREATEST FOOTBALL CROWD IN HISTORY AT HOMECOMING ON SATURDAY

MINNEAPOLIS, Minn.—Minnesota expects the greatest football crowd in the history of Northrup field when it meets Wisconsin on home-coming day here next Saturday.

The rejuvenated Gophers, undefeated in three Big Ten conference games this year, their first season under the tutelage of Coach Bill Spaulding, loom like dark horses to their followers, though only the most sanguine fans look for a victory over Wisconsin.

Regardless of the outcome of the Wisconsin game, it is evident that Coach Spaulding has established himself firmly in the hearts of Gopherdom, if the unanimity of his support—both from the student body and alumni—can be accepted as a true guage.

## NEWS BRIEFS

VICTORIA, B. C.—A bill to make support of parents obligatory upon sons and daughters has been introduced in the British Columbia legislature by Attorney General Hanson.

CHICAGO, Ill.—Relief from tag days was in sight for Chicago as a result of a resolution adopted by the city council limiting the number of tag days to three each year.

# CHICAGO FOCUSES EAGER EYES UPON CONFERENCE FLAG

### Regulars Get Back into Heavy Swing of Scrimmage on Thursday Night

CHICAGO, Ill.—Turning its back upon the disheartening defeat by Princeton the University of Chicago football team is now focusing eager eyes upon the conference championship hunting. Wednesday Coach Stagg sent the varsity through a short signal practice while the second string eleven engaged the Freshmen in scrimmage.

The regulars will get back into the swing of heavy practice Thursday. With the Ohio State game ten days away, Stagg will have plenty of time to iron out the rough spots which marred portions of Saturday's battle.

## SPORT BRIEFS

BOSTON, Mass—Zbyszko, former world's champion heavyweight wrestler, was awarded the decision over Cliff Binckley, former Ohio university football star.

TOLEDO, O.—Hugh Heal, of Toledo, made a season high run record of eleven in the national three-cushion billiard league.

# TELLS OF ATTACK OF BANDITS UPON RELIEF WORKERS

### Waukesha Man Instantly Killed Declares Member of Party Now in Hospital

ATHENS.—Enoch A. Applegate of Jersey City, N. J. the Near East relief worker who was seriously injured in a recent attack by Syrian bandits on a relief party near Aleppo, in which James Lester Wright of Waukesha, Wis., another Near East relief worker, was killed, is in a hospital in Beirut and making a good recovery.—a Beirut telegram announces.

Wright's death was instantaneous, details of the encounter show; a bullet through the neck severed the spinal cord. Applegate received a fragment of a bullet in the leg. Dr. Milleray and his wife, the other Americans in the party, were unharmed.

The attack occurred in French territory. The bandit party was composed of Turkish irregulars, who fired a volley into the Near East column without warning.

## "BROADWAY FOLLIES" THIRD SHUBERT UNIT HAS NOTED PLAYERS

The third of the Shubert advanced vaudeville units to play here this season will be "Broadway Follies," which comes to the La Crosse theatre, matinee and night, Wednesday, Nov. 8th. This particular organization is headed by De Haven and Nice, the famous "backyard entertainers," and Joe Towle, the inimitable monologist. Featured with them are the added attraction, Mr. and Mrs. Mel-Burne, in their new playlet, "On the Sleeping Porch," and Margaret Merle, the prima donna. These four acts, with the Broadway Flappers and a pretentious scene called "Entertaining the Sheik," and introducing Ben Allah's Arabian Demons, furnish the six acts of vaudeville which constitutes the first half of the evening's bill. "Broadway Follies," a tuneful musical revue, with all the vaudeville performers, a number of special players and a score of pretty girls, completes the bill. The entertainment is said to be chock full of laughs and fully up to the standard set by the two units which already have appeared here.

## A COMEDY ABOUT NEWLYWEDS COMING

The popular honeymoon farce comedy "Just Married," with Sylvia DeFrankie and Owen Martin, which ran all last season at the Nora Bayes theatre, New York, and for six months at the La Salle theatre in Chicago, will be presented by Jules Hurtig and Messrs. Shubert at the La Crosse theatre one night, Monday, Nov. 6.

The action of the play passes on board the French liner "LaFayette" bound from Bordeaux, France, to New York. The mixups of oddly assorted couples, ranging from some grey in matrimony to newlyweds become so badly scrambled that there seems no solution to the hilarious complications. But at last each is shooed into the arms of a loving spouse and the voyage continues happily.

The supporting cast includes Dorothea Howard, Fred James, Edmund Dalby, Elizabeth Rathburn, Jos. Slaytor, Marie Moultrie and others.

"Just Married" was written by Adelaide Matthews and Anna Nichols, authors of "Scrambled Wives" and "Nightie Night," and staged by J. C. Huffman and Clifford Stork.

# MOVIES

### "RAGS TO RICHES"

During the filming of Warner Brothers' latest production, "Rags to Riches," which comes to the Rivoli Theater beginning Sunday, young Wesley Barry's absorption in his part almost got him in trouble. Niles Welch has the part of Dumbell, a Secret Service Agent disguised as a burglar. Wes called him Dumbell both in and out of the studio and so vexed him that Director Wallace Worsley had to caution the lad to be more careful. Wesley lost no time in apologizing.

### TOM MIX AT THE RIVIERA

Few of the multitudes of motion picture actors who have appeared on the local screen during the past year possess the lustrous enthusiasm and powerful zest which is displayed by Tom Mix, the William Fox star, in his latest production, "Do and Dare" which opened at the Riviera Theater, last night, for a 2 days' engagement.

In "Do and Dare," the producer has afforded the western hero many opportunities to exhibit his varied skill, and Mix has made the most of them. From routing bands of savage Indians and rescuing the beautiful maiden from their villainous hands, to flying over land and seas and becoming commander of a Latin republic's military forces, are a few of his experiences. Claire Adams is a lovely leading lady, and the supporting cast contains many of the screen's most notable performers.

### DOROTHY DALTON AT STRAND

After finishing "On The High Seas," the Paramount picture in which she is co-featured with Jack Holt, Miss Dalton came east. She donned plain attire and journeyed some twenty minutes out from New York City to the suburban town of Larchmont, on Long Island Sound. There, within reach of the roar and tang of the waves, she rented a pretty little cottage. She told none of her friends that she was going. To every one in the village she gave her name as something else besides Dorothy Dalton. She laughed away any remarks as to her resemblance to the well known star. Her incognito was complete. Nobody bothered her, and she enjoyed a much-needed rest.

Miss Dalton's latest picture, "On the High Seas," will be the attraction at the Strand theater tonight. Jack Holt is co-featured with her, and Mitchell Lewis heads the supporting cast.

### MEIGHAN AT THE CASINO

Second sight, powers of divination, prescience—all these traits are embodied in the peculiar character of Professor Janssen, played by John Miltern, in Thomas Meighan's new Paramount picture, "The Man Who Saw Tomorrow," coming to the Casino Theater tonight.

One sees so much of the "fake" means by which this kind of manifestation of occult power can be successfully accomplished that skepticism is general. Such a character on the screen is invariably interesting. Mr. Meighan plays a sterling, red-blooded young scientist and explorer; Leatrice Joy is the lovely daughter of a South Sea Island trader of doubtful honesty.

## PHILIPPINE SENATE IN NEW MOVE FOR INDEPENDENT STATE

MANILA.—By The Associated Press.—The Philippine senate Thursday adopted unanimously a resolution asking the congress of the United States to authorize the Philippine legislature to call a constitutional convention to create a future independent republic in the Philippines and to determine what relation it should bear to the American government. The resolution was sent to the house of representatives.

### Deadly Dust

During the past year dust explosions in industrial plants in this country caused the loss of 109 lives and damage estimated at $7,000,000.

Eight different species of mushrooms are found growing wild.

# CALIFORNIA AUTHOR AND ARTIST WIFE MOTORING THROUGH

### Mr. and Mrs. H. Bennett Abdy Delighted With Scenery Hereabouts

H. Bennett Abdy, F. Am. G. S., and his wife, Ramona Meeks Abdy, are at the Stoddard waiting for the rain to cease ere they motor over the hills to Madison.

Mr. Abdy is the author of "On the Ohio," a record of a thousand mile sketching trip up the very humanely interesting and beautiful Ohio river.

Mrs. Abdy is one of California's foremost women painters and has illustrated her husband's book. Mr. Abdy refers to this region as the "Hamlin Garland Country," having in mind Garland's beautiful novel, "Rose of Dutcher's Cooley." Mr. Abdy received a letter a month ago from the famous Wisconsin author (who was then in London) in which Mr. Garland stated that he hoped to call on Mr. Abdy at the latter's study on Russian Hill, San Francisco, next April.

The Abdys are the proud possessors of a big powerful 1923 model Stanley steam sedan. The car was delivered to them in Omaha from which place they have motored to this point via Des Moines and Minneapolis.

Mrs. Abdy, the artist, says our region hereabout is very paintable with its picturesque bluffs and autumn colors. Mrs. Abdy has won several medals and prizes with her beautiful canvases and her strong, virile drawings in charcoal.

### Strawberries in September

Some London restaurants have been serving "morning gathered" strawberries which are a very great novelty for it is rare to have this fruit at that time. Christmas strawberries are somewhat common, being grown in hothouses, but these establishments do not yield September berries. This fruit comes from a hill in Buckinghamshire which was cleared of its wood during the war and from it luscious wild strawberries are being gathered as well as blackberries.

Backaches! try Sloan's

Relieves soreness by warming and circulating blood

Stop those dull, insistent aches, by relieving the painful congestion. Sloan's does this. Without rubbing, it quickly penetrates the sore spot, stimulating the circulation to and through it. Congestion is reduced, soreness allayed, the pain relieved.

Sloan's relieves sore, aching muscles, banishes the pains of rheumatism and neuralgia. Breaks up colds in chest. Stops suffering—wherever congestion rouses pain.

Sloan's Liniment-kills pain!

## NEW YORK STOCK MARKET

NEW YORK—Stock prices were pushed up in rapid fashion at the opening of Thursday's stock market, the buying embracing a wide list of standard shares and high class specialties. Standard and Mexican Oils showed some hesitancy at first but later began climbing with the rest of the list. Inquiry for railroad shares was influenced by record car loadings, gains of 1 to 2 points being registered by Northern Pacific, Canadian Pacific, St. Paul preferred, Southern Pacific and Chicago and Northwestern. Equipments rallied under the leadership of Baldwin and American Locomotive each up about two points, while Mexican Petroleum, Standard of New Jersey and California Petroleum were the outstanding oil shares, rising 1½ to 2 points. Among other individual strong spots were Vanadium, Steel, Marine preferred, United States Alcohol, American Snuff, United States Realty and Consolidated Gas, all up 1 to 3 points.

Short covering accelerated much of the early advance which ranged from 1 to 5 points in active shares. Speculators for the advance noting a virtual absence of short selling and forced liquidation and the splendid resistance shown by the list to the huge volume of realizing sales, bought stocks with fresh confidence. Encouraging trade news including reports that October automobile production would exceed that of September and conspicuous strength of foreign government bonds also contributed to the more cheerful sentiment. The largest gains were made by Dupont, American Express, American Car, Chicago Pneumatic Tool and American Tobacco, all up 3 to 5 points. May Department Stores, Jewell Tea preferred and Marine preferred were reactionary, losing 1 to 2½ points. Call money opened at 5 per cent.

## CHICAGO GRAIN MARKET

CHICAGO, Ill.—Despite much profit-taking on the part of holders, the wheat market scored a fresh upturn in prices Thursday during early dealings. An overnight accumulation of buying orders gave evidence of continued bullish sentiment which received further emphasis from word of ten per cent reduction in ocean rates and from European advices telling of difficulty in obtaining supplies. The opening, which ranged from ⅛ to ⅝c higher with December $1.16¾ to $1.17 and May $1.14¼ to ½ was followed by moderate new upturns.

After May delivery had reached a new high price record for the season, the wheat market Thursday eased down influenced by selling pressure due to talk in some quarters that a setback was to be expected. The close was unsettled at the same as Wednesday's finish to ⅝c lower with December $1.16⅝ to ½ and May $1.13⅞ to $1.14.

Liberal primary receipts and further rains in the winter crop belt tended to restrict buying in the last half of the day.

Export buying, together with assertions that country elevator stocks of old corn had become nearly exhausted, did a good deal to strengthen corn. After opening ¼ to ⅞c higher, December 68½ to ⅝c, the market showed but little tendency to react.

Subsequently, the corn market eased down somewhat in response to declines in wheat. Corn closed unsettled ⅛ to ⅛c net higher with December 68⅝ to ¾c.

Oats started ⅛ to ⅜c higher. December 42⅝ to ½c and later continued to gain.

Provisions were higher in line with hogs.

## EXECUTION OF REBEL LEADER IN MEXICO MOVE TOWARD PEACE

MEXICO CITY.—By The Associated Press.—A more optimistic spirit regarding the general pacification of Mexico can be sensed in government circles as the result of the execution of General Francisco Murguia, rebel leader and enemy of President Obregon by a firing squad in Durango Wednesday.

In Mexico City the execution of General Murguia was regarded as the most fortunate piece of work performed by the government during the past year in its campaign to snuff out rebellious movements.

## Public Debate

A BASEBALL CHAMPION

Editor Tribune:

I would like to say a few words in regard to your editorial about football becoming our national game and being more popular than baseball.

In my opinion baseball is ever so much more popular and I believe always will be. Football is only played by a few high schools and colleges, while baseball is played in every village, town and city over the entire United States.

The football season only lasts four to five weeks, while the baseball season lasts eight or nine months.

During the world's series baseball games the entire series of six games was sold out weeks ahead, the crowds at every game being over 40,000, the capacity of the grounds.

There are only a few football games that draw any crowds.

Also, during the world's series every newspaper in the country had its front page covered with baseball news, football games only receive a column at the most.

Our local baseball games draw crowds on Sundays from 6,000 to 10,000 people, while our football games only have 200 to 300 people.

In this city we have probably 25 or more ball teams and only two school football teams. This proportion would hold good for the balance of the United States. DIAMOND DICK.

### Birds in Long Flights

For many years government authorities have been gathering valuable information about the flight of migrating birds and it has been shown that some of them make marvelously long flights from the tropical countries to the far north. They often cross great bodies of water where there is no opportunity for rest. This information is gleaned by trapping and banding birds and then releasing them. Hunters make reports of finding or killing these birds.

## STANDARD OIL CASE AGAINST MARKETING LAW OPENS FRIDAY

### Asks Court to Set Aside Order Directing Abandonment of Rebate Practices

MADISON, Wis.—Trial of the case commenced by the Stanford Oil company of Indiana against the Wisconsin Department of Markets, attacking constitutionality of the marketing law enacted by the 1921 session of the legislature, will open Friday before Judge Chester A. Fowler, sitting in the Dane county circuit court.

The Standard Oil company is asking the court to set aside a department order directing the company to discontinue a rebating practice in its sale of gasoline to individual dealers throughout Wisconsin.

Judge E. Ray Stevens, who sat in preliminary proceedings in the action, refused to limit scope of the complaint made by the company, which makes a general attack on the marketing law. As a result the validity of the entire statute is at stake in the suit.

Alvin C. Reis, counsel for the department of markets, will represent the state.

# BADGERS SHOW IMPROVEMENT IN RECENT WORKOUT

### Coach Richards Undecided as to Lineup Starting Against Minnesota

### BADGER LINE IS MOST INCONSISTENT IN YEARS

### To Entrain for the North on Thursday Night

By BOB DUNN

"The team showed up much better Wednesday night than they did in the workout on Tuesday, said Coach Richards yesterday following the long scrimmage in preparation for the big game with Minnesota on Saturday.

Just what men will start in the line against the Gophers is still uncertain, according to the coaches, as each night the line play of some man shows up better than at previous workouts.

There is one discouraging fact regarding the Wisconsin team this year that has been outstanding in the workouts and because of which it is impossible to say just how the team will perform in its important encounters.

That fact is this. The playing of the entire Badger line is more inconsistent as a whole than the playing of any forward wall that has represented Wisconsin in years. The fact is evident not only from watching the scrimmages but from the fact that the coach is making repeated shifts in his lineups from night to night. One night one man shows up to good advantage and the coach thinks he has the problem solved. The next night the same man will play poor ball another man is inserted. This has kept the coaches from concentrating their efforts on any one set of forwards.

The same facts, however, react to the team's advantage in another way. Largely because of this lack of concentrated effort on the part of the coaches, Wisconsin has more reserve material in both the line and in the backfield than has been on hand in many seasons.

Other years there were good subs, of course, but the coach was always taking a serious chance in sending his subs into important encounters. This year, however, there are good men in both the backfield and the line that can be sent into any fray and the coach knows that they will not make any serious mistakes.

This is even more true of the backfield than the line although it is true of both. If Williams, Gibson, Taft and Harris are unable to get into the thick of things, there are Eagleburger, Saari, Whitten and Nolte who can perform to advantage in the backfield. If the guards do not come up to standard, Bieberstein, Smith and Smedal are able to fill their shoes well. The same is true of most of the other positions in the line.

The lack of experience of many men on the Wisconsin team, however, may prove a serious handicap for while many of the men are showing up well in scrimmage, no one knows better than the coach that it is often hard to tell just what a man will do under conference fire in important games.

Wisconsin's reserve strength will stand the coach in particularly good stead this season because of the hard November schedule of four tough games in a row. If the team comes out of the Minnesota encounter in good shape, they will be the better primed for Illinois but some casualties are bound to result in the hard mixes of the month and it is then that the reserve strength of the squad will show itself.

#### Concentrate on Gophers

Wisconsin is concentrating its attention on the Minnesota game this week and the big task of the coaching staff has been to develop a defense that will stop the Gophers. Any reports that Wisconsin is heading for other later conference games are false. The team will be compelled under existing conditions to prepare for each game as it comes along. The coaches are expecting a hard game this week, Illinois is always dangerous. Michigan is recognized as one of the strongest teams in the Big Ten and Chicago is formidable. Confronted by these facts, Coach Richards will be compelled to plan his attack from week to week and to improve his defensive play as each new opponent is encountered.

Ever since Jim Brader returned with bearish reports about Minnesota, the team has been giving its whole attention to this week's game and every man on the squad has been sufficiently impressed with the seriousness of the encounter.

#### Entrain Thursday

Thursday the last workout will be held at Camp Randall before the eleven entrains on Thursday night for the north. On Friday a light signal drill will be held at Northrup Field. The game on Saturday will be the feature of the Gophers' Homecoming celebration.

#### A Giant Clam

The museum of national history in New York has recently placed on exhibition a specimen of a great giant clam which is to be found on many of the islands of the Indian ocean, especially the Philippines. It weighs about twenty pounds and has valves measuring 45 by 20 inches.

Give some people an inch and they will proceed to divide it up into building lots.—Life.

## A Worse Foe To Clothes Than Wear

### Yet Few Women Know That They Wash With Water-Glass

By DOROTHY VERNON

Have you ever wondered why your clothes and linens don't last nowadays as your grandmother's did?

Well, grandmother made her soap. The ordinary white or yellow laundry soap today is only part soap. The rest is pasty "filler," usually water glass made from sand.

Don't think *your* favorite soap is any exception unless you know. A chemist examined 28 "popular" brands recently and found "filler" in 27 of them. GREEN ARROW laundry soap—the large, greenish bar—made by The Palmolive Co., was the only all-soap, pure soap bar among the lot.

Imagine using up your precious energy to rub worthless "filler" into clothes. When the clothes dry, the water glass crystallizes and cuts the threads. Other kinds of "filler" simply rot them.

You discover thin spots, splits, little holes and frayed edges and wonder why goods don't wear as well as in the old days.

They ought to wear for years as our grandmother's did and *will* if you use pure laundry soap like GREEN ARROW—green because it contains olive oil. But don't mix washing powders or other soap with it. Fabric makers wash their materials with olive oil soap to whiten the duers and give them that cuddly softness and sweetness they have when new. GREEN ARROW contains naphtha as well as olive oil—it is *all* soap, hence *all* cleaning power. That is why a bar goes nearly twice as far as the ordinary. And there's nothing milder than olive oil on hands and materials. Ask your grocer for it.

## TAKE SALTS TO FLUSH KIDNEYS

Eat less meat if you feel Backachy or have Bladder trouble.

Too much meat may form uric acid, which excites and overworks the kidneys in their efforts to filter it from the system. Big meat eaters can flush the kidneys occasionally to relieve them like they relieve the bowels, removing all the acids, waste and poison, else they may feel a dull misery in the kidney region, sharp pains in the back or sick headache, dizziness, the stomach sours, tongue is coated, and when the weather is bad they have rheumatic twinges. The urine is cloudy, full of sediment; the channels often get irritated, obliging one to get up two or three times during the night.

To help neutralize these irritating acids and flush off the body's urinous waste get about four ounces of Jad Salts from any pharmacy; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys may then act fine and bladder disorders disappear. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to help clean and stimulate sluggish kidneys and stop bladder irritation. Jad Salts is inexpensive, harmless and makes a delightful effervescent lithia water drink which millions of men and women take now and then to help prevent serious kidney and bladder disorders.
